IECAT INCLUSION CRITERIA

IETEST

IEORRES

- 1. Is patient seeking treatment for a current substance use problem?.....
2. Is the patient at least 18 years old?.....
3. Does the patient currently have a stable living arrangement?.....
4. Does the patient speak, read, and write English?.....
5. Is the patient willing to be randomized into treatment?.....
6. Is the patient willing to be contacted for follow-up interviews 4 and 12 weeks post-randomization?.....
7. Will the patient likely be in the area for the next 3 months?.....
8. Is the patient able to understand and give informed consent?.....

EXCLUSION CRITERIA

- 9. Is the patient seeking detoxification only for substance use problem?.....
10. Is the patient seeking methadone maintenance for substance use problem?.....
11. Is the patient seeking inpatient treatment for substance use problem?.....
12. Does the patient have dementia or an untreated/unstable psychotic disorder?.....
13. Has the patient participated in the MET or MI protocol (#0004,#0005) at this facility or any other facility?.....
14. Is the patient currently a significant suicidal/homicidal risk?.....
15. Is the patient facing incarceration for a period of greater than three weeks?.....
16. Does the patient have a spouse/SO currently enrolled in the MI protocol?.....

SC.SCTEST SC.SCORRES

- 17. At this point is the patient eligible for the study?.....

**Needle Use Behavior**

QSEVAL

1. How many times have you hit up (i.e., injected yourself with any drugs or were injected by someone else) in the last 30 days?

QSTEST

QSORRES

QSEVLINT=-P1M

- Hasn't hit up
- Once
- More than once
- Once a day
- 2-3 times a day
- More than three times a day

2. How many times in the last 30 days have you used a needle after someone else had already used it? Please include the number of times you used a needle after your partner in addition to the number of times you used a needle after others.

- No times
- One time
- Two times
- 3-5 times
- 6-10 times
- More than ten times

3. How many different people (including your partner) have used a needle before you in the last 30 days?

- None
- One person
- Two people
- 3-5 times
- 6-10 people
- More than ten people

4. How many times in the last 30 days has someone else used a needle after you used it?

- No times
- One time
- Two times
- 3-5 times
- 6-10 times
- More than ten times

# HIV Risk-Taking Behavior Scale

**4. REFLECTIVE STATEMENTS:** To what extent did the clinician repeat (exact words), rephrase (slight rewording), paraphrase (e.g., amplifying the thought or feeling, use of analogy, making inferences) or make reflective summary statements of what the participant was saying?

FREQUENCY & EXTENSIVENESS

- 
- Not at all    A little    Infrequently    Somewhat    Quite a bit    Considerably    Extensively

SKILL LEVEL:

- 
- Very poor    poor    acceptable    adequate    good    Very good    Excellent    Not done at all

**5. FOSTERING A COLLABORATIVE ATMOSPHERE:** To what extent did the clinician convey in words or actions that the therapy is a collaborative relationship in contrast to one where the clinician is in charge? How much did the clinician emphasize the (greater) importance of the participant's own decisions, confidence, and perception of the importance of changing? To what extent did the therapist verbalize respect for the participant's autonomy and personal choice?

FREQUENCY & EXTENSIVENESS

- 
- Not at all    A little    Infrequently    Somewhat    Quite a bit    Considerably    Extensively

SKILL LEVEL:

- 
- Very poor    poor    acceptable    adequate    good    Very good    Excellent    Not done at all

**6. MOTIVATION TO CHANGE:** To what extent did the clinician try to elicit participant discussion of change (self-motivational statements) through questions or comments designed to promote greater awareness/concern for the problem, increase intent/optimism to change, or encourage elaboration on a topic related to change? To what extent did the clinician discuss the stages of change, help the participant develop a rating of current readiness, or explore how motivation might be strengthened?

FREQUENCY & EXTENSIVENESS

- 
- Not at all    A little    Infrequently    Somewhat    Quite a bit    Considerably    Extensively

SKILL LEVEL:

- 
- Very poor    poor    acceptable    adequate    good    Very good    Excellent    Not done at all

**7. PROBLEM IDENTIFICATION AND FEEDBACK:** To what extent did the clinician facilitate a discussion of the problems for which the participant entered treatment? To what extent did the clinician review or provide personalized feedback about the participant's substance abuse and the evidence or indications of problems in other life areas?

FREQUENCY & EXTENSIVENESS

- 
- Not at all    A little    Infrequently    Somewhat    Quite a bit    Considerably    Extensively

SKILL LEVEL:

- 
- Very poor    poor    acceptable    adequate    good    Very good    Excellent    Not done at all

**8. HEIGHTENING DISCREPANCIES:** To what extent did the clinician create or heighten the internal conflicts of the participant relative to his/her substance use? To what extent did the clinician facilitate or increase the participant's awareness of a discrepancy between where her/his life is currently versus where s/he wants it to be in the future? How much did the clinician explore the role of substances in preventing the participant from reaching life goals or values?

FREQUENCY & EXTENSIVENESS

- 
- Not at all    A little    Infrequently    Somewhat    Quite a bit    Considerably    Extensively

SKILL LEVEL:

- 
- Very poor    poor    acceptable    adequate    good    Very good    Excellent    Not done at all

**9. PROS, CONS, AND AMBIVALENCE:** To what extent did the clinician address or explore the positive and negative effects or results of the participant's substance use and what might be gained and lost by abstinence or reduction in substance use? To what extent did the clinician use decisional balancing, complete a cost-benefits analysis, or develop a list of pros and cons of substance use? How much did the clinician express appreciation for ambivalence as a normal part of the change process?

FREQUENCY & EXTENSIVENESS

- 
- Not at all    A little    Infrequently    Somewhat    Quite a bit    Considerably    Extensively

SKILL LEVEL:

- 
- Very poor    poor    acceptable    adequate    good    Very good    Excellent    Not done at all

**10. CHANGE PLANNING:** To what extent did the clinician and participant collaboratively develop and make a commitment to a plan for change? How much did the clinician facilitate discussion of the positive and negative aspects of changing, what might get in the way, and how to address impediments to change?

FREQUENCY & EXTENSIVENESS

- 
- Not at all    A little    Infrequently    Somewhat    Quite a bit    Considerably    Extensively

SKILL LEVEL:

- 
- Very poor    poor    acceptable    adequate    good    Very good    Excellent    Not done at all

**11. SOCIAL FUNCTIONING AND FACTORS:** To what extent did the clinician assess or discuss the participant's social functioning in different life areas (e.g., work, family, partner, social network, legal, etc.)? How much did the clinician focus on stressors (e.g., interpersonal conflict) or factors (e.g., legal, employment) that influence the participant's being in treatment or that might promote (e.g., drug-free social supports) or jeopardize (e.g., unhealthy relationships) treatment success?

FREQUENCY & EXTENSIVENESS

- 
- Not at all    A little    Infrequently    Somewhat    Quite a bit    Considerably    Extensively

SKILL LEVEL:

QSORRES

A. Since randomization did the the following happen:

A1. How many appointments were scheduled since randomization

--	--

A2. How many appointments did the client no show to

--	--

A3. How many appointments did the client cancel

--	--

A4. How many appointments did you cancel

--	--

B. Did you record and label the audiotape with your and the participant's ID, the week, session, and date?

NO  YES

C. Are there problems the investigators or coordinator should know about? (specify on back and/or call)

NO  YES

E. How long was today's session? (in minutes)

--	--	--

QSORRESU='MINUTE'

II. Therapist Self Assessment:

INSTRUCTIONS FOR THE FOLLOWING PAGES: Please think of the current session you just completed with this participant and rate the degree to which you used the following techniques. This rating should take into account both the number of times you use a particular technique within or across sessions (frequency) as well as the depth or emphasis you place on these techniques when you use them (extensiveness). Please answer all items. If you are unfamiliar with a particular technique or you have never heard of many of the defining terms listed for an item, you should most likely circle "not at all."

## QSSCAT=THERAPIST SELF ASSESSMENT

**1. Problem Identification and Feedback:** To what extent did you facilitate a discussion of the problems for which the participant entered treatment? To what extent did you review or provide personalized feedback about the participant's substance abuse and the evidence or indications of problems in other life areas?

- Not at all     A little     Infrequently     Somewhat     Quite a bit     Considerably     Extensively

**2. Assessing/Monitoring Substance Use:** To what extent did you maintain your focus on the participant's past or recent use of drugs and alcohol, including the pattern of use, extent of urges/thoughts, extent of reduction in use, results of recent urine/breath tests?

- Not at all     A little     Infrequently     Somewhat     Quite a bit     Considerably     Extensively

**3. Open Questions:** To what extent did you use open-ended questions (i.e., questions that elicit more than yes/no responses) to elicit the participant's perception of his/her problems, motivation, change efforts, and plans?

- Not at all     A little     Infrequently     Somewhat     Quite a bit     Considerably     Extensively

**4. Fostering a Collaborative Atmosphere:** To what extent did you convey in words or actions that counseling is a collaborative relationship in contrast to one where you are in charge? how much did you emphasize the (greater) importance of the participant's own decisions, confidence, and perception of the importance of changing? To what extent did you verbalize respect for the participant's autonomy and personal choice?

- Not at all     A little     Infrequently     Somewhat     Quite a bit     Considerably     Extensively

**5. Pros, Cons, and Ambivalence:** To what extent did you address or explore the positive and negative effects or results of the participant's substance use and what might be gained and lost by abstinence or reduction in substance use? To what extent did you use decisional balancing, complete a cost-benefits analysis, or develop a list of pros and cons of substance use? How much did you express appreciation for ambivalence as a normal part of the change process?

- Not at all     A little     Infrequently     Somewhat     Quite a bit     Considerably     Extensively

**6. Psychoeducation About Substances:** To what extent did you provide information or facilitate discussion about drugs and alcohol including symptoms of intoxication, abuse, dependence, or withdrawal? How much did you educate the participant on the effects of substances on medical, employment, family, social, legal, and psychological functioning?

- |                       |                       |                       |                       |                       |                       |                       |
|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|
| <input type="radio"/> |
| Not at all            | A little              | Infrequently          | Somewhat              | Quite a bit           | Considerably          | Extensively           |

**7. Reflective Statements:** To what extent did you repeat (exact words), rephrase (slight rewording), paraphrase (e.g., amplifying the thought or feeling, use of analogy, making inferences) or make reflective summary statements of what the participant was saying?

- |                       |                       |                       |                       |                       |                       |                       |
|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|
| <input type="radio"/> |
| Not at all            | A little              | Infrequently          | Somewhat              | Quite a bit           | Considerably          | Extensively           |

**8. Self-Help Group Involvement:** To what extent did you encourage, monitor, or reinforce this participant's involvement in 12 Step (AA/NA/CA) or other recovery self-help meetings (e.g., relying on members, planning or participating in meeting-related activities)? To what extent did you explicitly refer to or explain the principles (e.g., specific Steps or recovery concepts) or review progress in self-help groups with this participant?

- |                       |                       |                       |                       |                       |                       |                       |
|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|
| <input type="radio"/> |
| Not at all            | A little              | Infrequently          | Somewhat              | Quite a bit           | Considerably          | Extensively           |

**9. Heightening Discrepancies:** To what extent did you try to create or heighten the internal conflicts of the participant relative to his/her substance use? To what extent did you facilitate or increase the participant's awareness of discrepancy between where her/his life is currently versus where s/he wants it to be in the future? How much did you explore the role of substances in preventing the participant from reaching life goals or values?

- |                       |                       |                       |                       |                       |                       |                       |
|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|-----------------------|
| <input type="radio"/> |
| Not at all            | A little              | Infrequently          | Somewhat              | Quite a bit           | Considerably          | Extensively           |

**10. Change Planning Discussion:** To what extent did you and the participant collaboratively develop and make a commitment to a plan for change? How much did you facilitate discussion of the positive and negative aspects of changing, what might get in the way, and how to address impediments to change?

- |                       |                       |                       |                       |                       |                       |                       |

**11. Reality Therapy Principles:** To what extent did you encourage this participant to accept responsibility for his/her substance abuse and the choices s/he has made that has kept him/her in a substance using lifestyle? How much did you emphasize that successful recovery depends on this participant making the right decisions and taking control of his/her life?

- Not at all    
  A little    
  Infrequently    
  Somewhat    
  Quite a bit    
  Considerably    
  Extensively

**12. Social Functioning and Factors:** To what extent did you assess or discuss the participant's social functioning in different life areas (e.g., work, family, partner, social network, legal, etc.)? How much did you focus on stressors (e.g., interpersonal conflict) or factors (e.g., legal, employment) that influence the participant's being in treatment or that might promote (e.g., drug-free social supports) or jeopardize (e.g., unhealthy relationships) treatment success?

- Not at all    
  A little    
  Infrequently    
  Somewhat    
  Quite a bit    
  Considerably    
  Extensively

**13. Motivation to Change:** To what extent did you try to elicit self-motivational statements through questions or comments designed to promote greater participant awareness/concern for the problem, increase intent/optimism to change, or encourage elaboration on a topic related to change? To what extent did you discuss the stages of change, help the participant develop a rating of current readiness, or explore how motivation might be strengthened?

- Not at all    
  A little    
  Infrequently    
  Somewhat    
  Quite a bit    
  Considerably    
  Extensively

**14. Affirmation of Strengths and Self-Efficacy:** To what extent did you verbally reinforce the participant's strengths, abilities, or efforts to change his/her behavior? To what extent did you encourage a sense of self-efficacy on the part of the participant by praising small steps in the direction of change or expressing appreciation of personal qualities in the participant that might facilitate successful efforts to change?

- Not at all    
  A little    
  Infrequently    
  Somewhat    
  Quite a bit    
  Considerably    
  Extensively

Each statement below describes how a person might feel when starting therapy or approaching problems in their lives. Please indicate the extent to which you tend to agree or disagree with each statement. In each case, make your choice in terms of **how you feel right now**, not what you have felt in the past or would like to feel. For all the statements that refer to your "problem," answer in terms of problems related to your drug use. The words "here" and "this place" refer to this drug abuse treatment program.

There are five possible responses to each of the items in the questionnaire:

- Strongly Disagree     Disagree     Undecided     Agree     Strongly Agree

Please darken the circle that best represents your answer to each question.

1. As far as I'm concerned, I don't have any problems that need changing. QSTEST  
 Strongly Disagree     Disagree     Undecided     Agree     Strongly Agree QSORRES
2. I think I might be ready for some self-improvement.  
 Strongly Disagree     Disagree     Undecided     Agree     Strongly Agree
3. I am doing something about the problems that had been bothering me.  
 Strongly Disagree     Disagree     Undecided     Agree     Strongly Agree
4. It might be worthwhile to work on my problem.  
 Strongly Disagree     Disagree     Undecided     Agree     Strongly Agree
5. I'm not the problem one. It doesn't make much sense for me to be here.  
 Strongly Disagree     Disagree     Undecided     Agree     Strongly Agree
6. It worries me that I might slip back on a problem I have already changed, so I am here to seek help.  
 Strongly Disagree     Disagree     Undecided     Agree     Strongly Agree
7. I am finally doing some work on my problem.  
 Strongly Disagree     Disagree     Undecided     Agree     Strongly Agree
8. I've been thinking that I might want to change something about myself.  
 Strongly Disagree     Disagree     Undecided     Agree     Strongly Agree
9. I have been successful in working on my problem but I'm not sure I can keep up the effort on my own.  
 Strongly Disagree     Disagree     Undecided     Agree     Strongly Agree
