Date:	<input style="width: 180px; height: 30px;" type="text"/>		
	<i>(mm/dd/yyyy)</i>		

Inclusion Criteria

- Yes No 1. Subject is at least 18 years-of-age.
- Yes No 2. Subject has a DSM-IV diagnosis of cocaine dependence as determined by SCID.
- Yes No 3. Subject is seeking treatment for cocaine dependence.
- Yes No 4. Subject had at least 1 positive urine BE specimen (>300 ng/mL) within the three-week screening/baseline period prior to randomization with a minimum of six of the 9 scheduled samples tested, with no more than two specimens collected on consecutive days, no more than three specimens collected in one week, and no more than four days between samples (including between end of screening/baseline period and sample collected on Week 1, Day 1).
- Yes No 5. Subject has the ability to understand, and having understood, has provided written informed consent.
- Yes No N/A Male
 6. If female, be surgically sterile, 2 years postmenopausal, or if of childbearing potential, agree to use an accepted method of birth control as follows, and agree to continue use of this method for at least 30 days after the last dose of study drug.
 - a) barrier method with spermicide
 - b) steroidal contraceptive [oral, Implanted, injected] used in conjunction with a barrier method
 - c) Contraceptive patch used in conjunction with a barrier method
 - d) Intrauterine device [IUD]

If any of Questions 1-6 above are answered "No" the subject is ineligible. Please proceed to the end of this form and complete the final questions.

Exclusion Criteria

- Yes No 1. Subject has current dependence, defined by DSM-IV criteria, on any psychoactive substance other than cocaine, alcohol, nicotine, or marijuana or physiological dependence on alcohol requiring medical detoxification.
- Yes No 2. Subject is mandated by the court to obtain treatment for cocaine-dependence.
- Yes No 3. Subject has been enrolled in an opiate-substitution program (methadone, LAAM, buprenorphine) within 2 months of screening.
- Yes No 4. Subject is someone who, in the opinion of the investigator, would not be expected to complete the study protocol due to probable incarceration or relocation from the clinic area.
- Yes No 5. Subject has a psychiatric disorder, as assessed by the SCID, or a neurological disorder, brain disease, dementia or any disorder that, in the opinion of the study physician requires ongoing treatment that would make study participation unsafe or which would make treatment compliance difficult.

Screening/Baseline

Site ID:	Subject ID #.	Subject Initials	Week

Date:
(mm/dd/yyyy)

- Yes No 6. Subject has had electroconvulsive therapy within the past 3 months preceding screening.
- Yes No 7. Subject has a current suicidal ideation or plan (within the past 30 days) as assessed by the SCID.
- Yes No 8. Subject is pregnant or lactating.
- Yes No 9. Subject has a serious medical illnesses including, but not limited to,
 - a) uncontrolled hypertension,
 - b) significant heart disease (including myocardial infarction within one year of enrollment), or any clinically significant cardiovascular abnormality (ECG),
 - c) hepatic, renal or gastrointestinal disorders that could result in a clinically significant alteration of metabolism or excretion of the study agent,
 - d) potentially life-threatening or progressive medical illness other than addiction that may compromise subject safety or study conduct.
- Yes No 10. Subject has clinically significant abnormal laboratory values, including those referenced in Appendix I.
- Yes No 11. Subject has AIDS according to the current CDC criteria for AIDS MMWR 1999; 48 (No.RR-13:29-31).
- Yes No 12. Subject has active syphilis that has not been treated or refuses treatment for syphilis (see note below).
- Yes No 13. Subject has active tuberculosis (positive tuberculin test and confirmatory chest x-ray).
- Yes No 14. Subject has a diagnosis of adult (i.e. 21 years or older) asthma, or chronic obstructive pulmonary disease (COPD), or has a history of acute asthma within the past two years, or has current or recent (past 3 months) treatment with inhaled or oral beta-agonist or steroid therapy (because of potential serious adverse interactions with cocaine).
- Yes No 15. Subject is actively using albuterol or other beta agonist medications, regardless of formal diagnosis of asthma. (Inhalers are sometimes used by cocaine addicts to enhance cocaine delivery to the lungs).
A subject without respiratory disease who will consent to discontinue beta-agonist use, may be considered for inclusion.
- Yes No 16. Subject has received a drug with known potential for toxicity to a major organ system within 30 days prior to screening (e.g. isoniazid, methotrexate).
- Yes No 17. received medication that could interact adversely with modafinil, with the time of administration of study agent and other medications based on the longest time interval of A, B, or C, below:
 - A) Five half lives of other medication or metabolite(s), whichever is longer
 - B) Two weeks
 - C) Interval recommended by other medication's product labeling

Please see protocol for a list of medications that fall into this category.

Screening/Baseline

Site ID:	Subject ID #.	Subject Initials	Week

Date:
 (mm/dd/yyyy)

- Yes No 18. Subject has participated in any experimental study within 2 months preceding screening.
- Yes No 19. Subject has a known or suspected hypersensitivity to Modafinil.
- Yes No 20. Subject is taking Modafinil for any reason currently or within the past year.
- Yes No 21. Subject has alcohol dependence that requires medical detoxification in the opinion of the study physician.

If any of Questions 1-20 above are answered "Yes" the subject is ineligible. Please proceed to the end of this form and complete the final questions.

Notes on inclusion/exclusion criterion: Although AIDS is an exclusion criteria, a positive antibody titer to HIV is not. Prospective subjects will be offered HIV testing. This test is offered as a courtesy to the prospective subject along with HIV education.

Prospective subjects who are positive for syphilis by the RPR test will have a confirmatory test performed (see protocol). If this test is positive, prospective subjects must be treated for syphilis to be enrolled on the study or provide evidence of completion of treatment for syphilis.

The infectious disease panel for hepatitis is performed as an aid to determine if the prospective subject has been exposed to the hepatitis virus. Positive hepatitis results do not exclude a prospective subject from participation unless there is an indication of active liver disease. However, if liver function tests (e.g. ALT and AST) are over three times normal it is presumptive evidence that the subject has active hepatitis and should be excluded from the study (exclusion criterion #10). A positive PPD result does not exclude a prospective subject from participation, but if diagnostic tests (e.g. chest x-ray) indicate that active disease is present, subjects will be excluded from participation.

Yes No **Is the subject eligible for randomization based on the above criteria?**

Yes No **Was the subject randomized?**

If "No", please indicate the reason on the End of Trial form:

Screening/Baseline

Site ID:	Subject ID #.	Subject Initials	Week

Date:
(mm/dd/yyyy)

This form is to be filled out for female subjects only. All female subjects must be tested at Screening/Baseline and have a negative pregnancy test in order to be eligible for this study.

What method of birth control is the participant currently using (prior to taking modafinil)?

- Oral contraceptive
- Barrier (diaphragm or condom plus spermicide)
- Levonorgestrel implant (Norplant)
- Intrauterine Contraceptive system (IUD)
- Medroxyprogesterone Acetate Contraceptive injection (Depo-Provera)
- Contraceptive patch
- Surgical Sterilization - Hysterectomy
- Surgical Sterilization - Tubal ligation

Unless surgically sterile or 2 years postmenopausal, does the subject agree to use an acceptable method of birth control during the study and 30 days after last dose of study drug?

- Yes No

If yes, mark below the acceptable method selected by the subject for use:

- barrier method with spermicide
- steroidal contraceptive [oral, Implanted, injected] used in conjunction with a barrier method
- Contraceptive patch used in conjunction with a barrier method
- Intrauterine device [IUD]

Was a pregnancy test performed? Yes No

If yes, date specimen collected
(mm/dd/yyyy)

Result: Negative Positive Unknown

If no, specify reason:

Is the subject lactating? Yes No

Subject ID #.

Subject Initials

Week

Date:

(mm/dd/yyyy)

1. Depressed Mood

(*sad, hopeless, helpless, worthless*)

- 0 = Absent
- 1 = These feeling states indicated only on questioning.
- 2 = These feeling states spontaneously reported verbally.
- 3 = Communicates feeling states nonverbally – i.e., through facial expression, posture, voice, and tendency to weep.
- 4 = Subject reports virtually only these feeling states in his/her spontaneous verbal and nonverbal communication.

2. Feelings of Guilt

- 0 = Absent
- 1 = Self-reproach, feels s/he has let people down.
- 2 = Ideas of guilt or rumination over past errors or sinful deeds.
- 3 = Present illness is a punishment. Delusions of guilt.
- 4 = Hears accusatory or denunciatory voices and/or experiences threatening visual hallucinations.

3. Suicide

- 0 = Absent
- 1 = Feels life is not worth living.
- 2 = Wishes s/he were dead or any thoughts of possible death to self.
- 3 = Suicide ideas or gesture.
- 4 = Attempts at suicide (any serious attempt rates 4).

4. Insomnia Early

- 0 = No difficulty falling asleep.
- 1 = Complains of occasional difficulty falling asleep. (i.e., more than ½ hour)
- 2 = Complains of nightly difficulty falling asleep.

5. Insomnia Middle

- 0 = No difficulty.
- 1 = Subject complains of being restless and disturbed during the night.
- 2 = Waking during the night – any getting out of bed rates 2 (*except for purposes of voiding*).

6. Insomnia Late

- 0 = No difficulty.
- 1 = Waking in early hours of the morning but goes back to sleep.
- 2 = Unable to fall asleep again if gets out of bed.

Subject ID #.

Subject Initials

Week

Date:

(mm/dd/yyyy)

7. Work and Activities

- 0 = No difficulty
- 1 = Thoughts and feelings of incapacity, fatigue, or weakness related to activities; work or hobbies.
- 2 = Loss of interest in activity; hobbies or work – either directly reported by patient, or indirect in listlessness, indecision and vacillation (*feels s/he has to push self to work or activities*).
- 3 = Decrease in actual time spent in activities or decrease in productivity.
- 4 = Stopped working because of present illness.

8. Retardation

(slowness of thought and speech; impaired ability to concentrate; decreased motor activity)

- 0 = Normal speech and thought
- 1 = Slight retardation at interview
- 2 = Obvious retardation at interview
- 3 = Interview difficult
- 4 = Complete stupor

9. Agitation

- 0 = None
- 1 = Fidgetiness
- 2 = Playing with hands, hair, etc.
- 3 = Moving about, can't sit still
- 4 = Hand-wringing, nail-biting, hair-pulling, biting of lips

10. Anxiety Psychic

- 0 = No difficulty
- 1 = Subjective tension and irritability
- 2 = Worrying about minor matters
- 3 = Apprehensive attitude apparent in face or speech
- 4 = Fears expressed without questioning

11. Anxiety Somatic

(Physiological concomitants of anxiety such as: Gastrointestinal: dry mouth, wind, indigestion, diarrhea, cramps, belching. Cardiovascular: palpitations, headaches. Respiratory: hyperventilation, sighing. Urinary frequency. Sweating.)

- 0 = Absent
- 1 = Mild
- 2 = Moderate
- 3 = Severe
- 4 = Incapacitating

12. Somatic Symptoms Gastrointestinal

- 0 = None
- 1 = Loss of appetite but eating without encouragement. Heavy feelings in abdomen.
- 2 = Difficulty eating without urging. Requests or requires laxatives or medication for bowels or medication for G.I. symptoms.

Screening/Baseline

Site ID:	Subject ID #.	Subject Initials	Week
<input style="width: 150px; height: 25px;" type="text"/>	<input style="width: 150px; height: 25px;" type="text"/>	<input style="width: 150px; height: 25px;" type="text"/>	<input style="width: 50px; height: 25px;" type="text"/>
Date:	<input style="width: 180px; height: 25px;" type="text"/>		
	<i>(mm/dd/yyyy)</i>		

13. Somatic Symptoms General

- 0 = None
- 1 = Heaviness in limbs, back or head. Backaches, headache, muscle aches. Loss of energy and fatigability.
- 2 = Any clear-cut symptom rates 2.

14. Genital Symptoms

(such as loss of libido and menstrual disturbances)

- 0 = Absent
- 1 = Mild
- 2 = Severe

15. Hypochondriasis

- 0 = Not present
- 1 = Self-absorption (bodily)
- 2 = Preoccupation with health
- 3 = Frequent complaints, requests for help, etc.
- 4 = Hypochondriacal delusions

16. Loss of Weight

- 0 = No weight loss
- 1 = Probable weight loss associated with present illness.
- 2 = Definite weight loss (according to subject)

17. Insight

- 0 = Acknowledges being depressed and ill.
- 1 = Acknowledges illness but attributes cause to bad food, climate, overwork, virus, need for rest, etc.
- 2 = Denies being ill at all

18. Diurnal Variation

- 0 = No variation
 - 1 = (Mild) Doubtful or slight variation
 - 2 = (Severe) Clear or marked variation
- If answer is 1 or 2, note whether the symptoms are worse in: O A.M. O P.M.

19. Depersonalization and Derealization

(symptoms such as feelings of unreality and nihilistic ideas)

- 0 = Absent
- 1 = Mild
- 2 = Moderate
- 3 = Severe
- 4 = Incapacitating

Screening/Baseline

20. Paranoid Symptoms

- 0 = None
- 1 = Suspicious
- 2 = Ideas of reference
- 3 = Delusions of reference and persecution

21. Obsessive and Compulsive Symptoms

- 0 = Absent
- 1 = Mild
- 2 = Severe

22. Helplessness

- 0 = Not present
- 1 = Subjective feelings which are elicited only by inquiry.
- 2 = Subject volunteers his helpless feelings.
- 3 = Requires urging, guidance and reassurance to accomplish chores or personal hygiene.
- 4 = Despite urging, does not perform necessary chores or personal hygiene.

23. Hopelessness

- 0 = Not present
- 1 = Intermittently doubts that "things will improve" but can be reassured.
- 2 = Consistently feels "hopeless" but accepts reassurances.
- 3 = Expresses feelings of discouragement, despair, pessimism about future, which cannot be dispelled.
- 4 = Spontaneously and inappropriately perseverates, "I'll never get well," or its equivalent

24. Worthlessness

(ranges from mild loss of self-esteem, feelings of inferiority, self-depreciation (loss of self-esteem) to delusion notions of worthlessness)

- 0 = Not present
- 1 = Indicates feelings of worthlessness (loss of self esteem) only on questioning.
- 2 = Spontaneously indicates feelings of worthlessness (loss of self esteem).
- 3 = Different from 2 by degree: Subject volunteers that s/he is "no good," "inferior," etc.
- 4 = Expresses feelings of total worthlessness – e.g. "I am a heap of garbage" or equivalent

(mm/dd/yyyy)

Ask subject to read each of the items and choose only one answer for each question

Drug Use

1. How many times have you hit up (i.e. injected any drugs) in the last month?

I haven't hit up

If you have not injected drugs in the last month, go to Question 7.

Once a week or less

More than once a week but less than once a day

Once a day

2--3 times a day

More than three times a day

2. How many times in the last month have you used a needle after someone else had already used it?

No times

One time

Two times

3-5 times

6-10 times

More than 10 times

3. How many different people have used a needle before you in the past month?

None

One person

Two people

3-5 people

6-10 people

More than 10 people

4. How many times in the last month has someone used a needle after you?

No times

One time

Two times

3-5 times

6-10 times

More than 10 times

5. How often, in the last month, have you cleaned needles before re-using them?

I do not re-use

Every time

Often

Sometimes

Rarely

Never

6. Before using needles again, how often in the past month did you use bleach to clean them?

I do not re-use

Every time

Often

Sometimes

Rarely

Never

Sexual Behavior

7. How many people, including clients, have you had sex with in the last month?

None

If you have not had sex in the last month, skip to Question 12.

One

Two

3-5 people

6-10 people

More than 10 people

8. How often have you used condoms when having sex with your regular partner(s) in the last month?

No regular partner/no penetrative sex

Every time

Often

Sometimes

Rarely

Never

9. How often have you used condoms when you had sex with casual partners?

No casual partner/no penetrative sex

Every time

Often

Sometimes

Rarely

Never

10. How often have you used condoms when you have been paid for sex in the last month?

No paid partner/no penetrative sex

Every time

Often

Sometimes

Rarely

Never

11. How many times have you had anal sex in the last month?

No times

One time

Two times

3-5 times

6-10 times

More than 10 times

Everyone should answer Question 12.

12. Have you had an HIV test come back positive?

Yes

No

Don't know

	(mm/dd/yyyy)		

Indicate how much you agree or disagree with each of the following statements by circling the number which best shows how you feel. The lower the number, the more you disagree; the higher the number, the more you agree with the statement. Please complete every item. We are interested in how you are thinking or feeling RIGHT NOW as you are filling out the questionnaire.

	<u>Strongly Disagree</u>						<u>Strongly Agree</u>
1. If I were using cocaine, I could think more clearly.	1	2	3	4	5	6	7
2. Right now I am not making plans to use "coke."	1	2	3	4	5	6	7
3. My desire to use cocaine seems overpowering.	1	2	3	4	5	6	7
4. I am thinking of ways to get cocaine.	1	2	3	4	5	6	7
5. I don't want to use "coke".	1	2	3	4	5	6	7
6. If I were offered some "coke", I would use it immediately.	1	2	3	4	5	6	7
7. Using cocaine would make me feel less depressed.	1	2	3	4	5	6	7
8. I could easily control how much cocaine I use right now.	1	2	3	4	5	6	7
9. I crave "coke" right now.	1	2	3	4	5	6	7
10. Using cocaine would make me feel powerful.	1	2	3	4	5	6	7
11. If there were cocaine in front of me, it would be hard not to use it.	1	2	3	4	5	6	7
12. Using cocaine would not help me calm down right now.	1	2	3	4	5	6	7
13. I would feel very alert if I used cocaine right now.	1	2	3	4	5	6	7
14. If I had the chance to use "coke", I don't think I would use it.	1	2	3	4	5	6	7
15. I would not enjoy using cocaine right now.	1	2	3	4	5	6	7
16. I would do almost anything for cocaine right now.	1	2	3	4	5	6	7
17. I could control things better right now if I could use cocaine.	1	2	3	4	5	6	7
18. Even if it were possible, I probably would not use cocaine right now.	1	2	3	4	5	6	7
19. Using "coke" would not be pleasant.	1	2	3	4	5	6	7
20. I think that I could resist using "coke" right now.	1	2	3	4	5	6	7

3. The length of time I spent craving for cocaine during the past 24 hours was:

- None at all Very short Short Somewhat long Very long

4. Write in the number of times you think you had craving for cocaine during the past 24 hours:

5. Write in the total time spent craving cocaine during the past 24 hours:

 hours minutes

6. The worst day: During the past week my most intense craving occurred on the following day:

- Sunday Monday Tuesday Wednesday
 Thursday Friday Saturday All days the same (go to Q. 8)

7. The date for that day was:

(mm/dd/yyyy)

8. The intensity of my craving, that is, how much I desired cocaine on that worst day was:

- None at all Slight Moderate Considerable Extreme

Second Drug

9. A **2nd** craved drug during the past 24 hours was:

Mark only one of the following. If no 2nd craved drug, mark "None" and leave Questions 10-16 blank.

- None Downers or Sedatives (Barbiturates, etc.) Benzos (Valium, Xanax, etc.) Nicotine
 Alcohol Heroin or other Opiates (Morphine, etc.) Marijuana Other Specify

10. The intensity of my craving, that is, how much I desired this **second** drug in the past 24 hours was:

- None at all Slight Moderate Considerable Extreme

Screening/Baseline -3

Site ID: Subject ID #: Subject Initials: Week:

Date:
(mm/dd/yyyy)

11. The frequency of my craving, that is, how often I desired this **second** drug in the past 24 hours was:
- Never Almost never Several times Regularly Almost constantly
12. The length of time I spent in craving for this **second** drug during the past 24 hours was:
- None at all Very short Short Somewhat long Very long

Third Drug

13. A 3rd craved drug during the past 24 hours was:
Mark only one of the following. If no 3rd craved drug, mark "None" and leave questions 14-16 blank.
- None Downers or Sedatives (Barbiturates, etc.) Benzos (Valium, Xanax, etc.) Nicotine
- Alcohol Heroin or other Opiates (Morphine, etc.) Marijuana Other Specify

14. The intensity of my craving, that is, how much I desired this **third** drug in the past 24 hours was:
- None at all Slight Moderate Considerable Extreme

15. The frequency of my craving, that is, how often I desired this **third** drug in the past 24 hours was:
- Never Almost never Several times Regularly Almost constantly

16. The length of time I spent in craving for this **third** drug during the past 24 hours was:
- None at all Very short Short Somewhat long Very long

Global Severity of Cocaine Dependence

Considering your total clinical experience with the cocaine dependent population, how severe are this subject's cocaine dependence symptoms at this time?

- Normal, no symptoms
- Borderline symptoms
- Mild symptoms
- Moderate symptoms
- Marked symptoms
- Severe symptoms
- Most extreme symptoms possible

Global Improvement of Cocaine Dependence

Rate the total improvement in the participant's cocaine dependence symptoms whether or not, in your judgment, it is due entirely to drug treatment. Compared to the subject's admission to the project, how much has the subject changed?

- Not assessed, first rating
- Very much improved
- Much improved
- Minimally improved
- No change
- Minimally worse
- Much worse
- Very much worse

Global Severity of Cocaine Dependence

Considering your total clinical experience with the cocaine dependent population, how severe are this subject's cocaine dependence symptoms at this time?

- Normal, no symptoms
- Borderline symptoms
- Mild symptoms
- Moderate symptoms
- Marked symptoms
- Severe symptoms
- Most extreme symptoms possible

Global Improvement of Cocaine Dependence

Rate the total improvement in the participant's cocaine dependence symptoms whether or not, in your judgment, it is due entirely to drug treatment. Compared to the subject's admission to the project, how much has the subject changed?

- Not assessed, first rating
- Very much improved
- Much improved
- Minimally improved
- No change
- Minimally worse
- Much worse
- Very much worse

Completed by (Initials):

All questions except 4 and 5 are assessed by properly trained personnel. The subject is asked about each of the items in lay language and the response is recorded on a scale of 0-7 with 0 being normal or no symptoms. For question 4 and 5, the subject is asked to mark the appropriate place on the line (on page 3) that describes each of the questions. The rater then transcribes that as the response to those questions.

Eligibility for Randomization

1. Is the subject eligible for randomization? Yes No

Obtain this information from Page 3 of Entry Criteria CRF (Form 19)

Randomization Information

2. At the time the informed consent to screen (Part I) was signed, indicate the number of self-reported days of cocaine use in the past 30 days .

Obtain this information from Demographics CRF, Drug and Alcohol Use section (Form2).

3. Gender Male Female

After entering the above information into randomization system, please record Date of randomization, and Kit Number below.

Randomization

3. Date of randomization
(mm/dd/yyyy)

5. Treatment kit number assigned

It is assumed that the first dose will be received on the same day as randomization. Therefore, Day of Randomization = Study Day 1.

- None at all
- Very short
- Short
- Somewhat long
- Very long

Completed by (Initials):

All questions except 4 and 5 are assessed by properly trained personnel. The subject is asked about each of the items in lay language and the response is recorded on a scale of 0-7 with 0 being normal or no symptoms. For question 4 and 5, the subject is asked to mark the appropriate place on the line (on page 3) that describes each of the questions. The rater then transcribes that as the response to those questions.

Date of last cocaine use:

(mm/dd/yyyy)

1. **Hyperphagia**

- 0 = normal appetite
- 3-4 = eats a lot more than usual
- 7 = eats more than twice usual amount of food

2. **Hypophagia**

- 0 = normal appetite
- 3-4 = eats less than half of normal amount of food
- 7 = no appetite at all

3. **Carbohydrate Craving**

- 0 = no craving
- 3-4 = strong craving for sweets, cakes, and cookies half the time
- 7 = strong craving for sweets, cakes, and cookies all the time

4. **Cocaine Craving Intensity**

Please use subject intensity rating from pg. 3 of this form.

5. **Cocaine Craving Frequency**

Please use subject frequency rating from pg. 3 of this form.

6. **Bradycardia**

Please use scale below.

	0	1	2	3	4	5	6	7
Pulse (BPM)	>64	64-63	62-61	60-59	58-57	56-55	54-53	<53

7. **Insomnia**

- 0 = normal amount of sleep
- 3-4 = half of normal amount of sleep
- 7 = no sleep at all

8. **Hypersomnia**

- 0 = normal amount of sleep
- 3-4 = could sleep or does sleep half the day
- 7 = sleep or could sleep all the time

9. Anxiety

0 = usually does not feel anxious
3-4 = feels anxious half the time
7 = feels anxious all the time

10. Energy Level

0 = feels alert and has usual amount of energy
3-4 = feels tired half the time
7 = feels tired all the time

11. Activity Level

0 = no change in usual activities
3-4 = participates in half of usual activities
7 = no participation in usual activities

12. Tension

0-1 = rarely feel tense
3-4 = feels tense half the time
7 = feels tense most or all the time

13. Attention

0 = able to concentrate on reading, conversation, tasks, and make plans without difficulty
3-4 = has difficulty with the above half the time
7 = has difficulty with the above all the time

14. Paranoid Ideation

0 = no evidence of paranoid thoughts
3-4 = unable to trust anyone
5 = feels people are out to get him/her
7 = feels a specific person/group is plotting against him/her

15. Anhedonia

0 = ability to enjoy themselves remains unchanged
3-4 = able to enjoy themselves half of the time
7 = unable to enjoy themselves at all

16. Depression

0 = no feelings related to sadness or depression
3-4 = feels sad or depressed half the time
7 = feels depressed all of the time

17. Suicidality

0 = does not think about being dead
3-4 = feels like life is not worth living
7 = feels like actually ending life

18. Irritability

0 = feels that most things are not irritating
3-4 = feels that many things are irritating
7 = feels that mostly everything is irritating and upsetting

Global Severity of Cocaine Dependence

Considering your total clinical experience with the cocaine dependent population, how severe are this subject's cocaine dependence symptoms at this time?

- Normal, no symptoms
- Borderline symptoms
- Mild symptoms
- Moderate symptoms
- Marked symptoms
- Severe symptoms
- Most extreme symptoms possible

Global Improvement of Cocaine Dependence

Rate the total improvement in the participant's cocaine dependence symptoms whether or not, in your judgment, it is due entirely to drug treatment. Compared to the subject's admission to the project, how much has the subject changed?

- Not assessed, first rating
- Very much improved
- Much improved
- Minimally improved
- No change
- Minimally worse
- Much worse
- Very much worse

Cocaine

- The intensity of my craving, that is, how much I desired cocaine in the past 24 hours was:
 None at all Slight Moderate Considerable Extreme
- The frequency of my craving, that is, how often I desired cocaine in the past 24 hours was:
 Never Almost never Several times Regularly Almost constantly
- The length of time I spent craving for cocaine during the past 24 hours was:
 None at all Very short Short Somewhat long Very long
- Write in the number of times you think you had craving for cocaine during the past 24 hours:
- Write in the total time spent craving cocaine during the past 24 hours:
 hours minutes
- The worst day: During the past week my most intense craving occurred on the following day:
 Sunday Monday Tuesday Wednesday
 Thursday Friday Saturday All days the same (go to Q. 8)
- The date for that day was:
(mm/dd/yyyy)
- The intensity of my craving, that is, how much I desired cocaine on that worst day was:
 None at all Slight Moderate Considerable Extreme

Second Drug

- A 2nd craved drug during the past 24 hours was:
Mark only one of the following. If no 2nd craved drug, mark "None" and leave Questions 10-16 blank.
 None Downers or Sedatives (Barbiturates, etc.) Benzos (Valium, Xanax, etc.) Nicotine
 Alcohol Heroin or other Opiates (Morphine, etc.) Marijuana Other Specify
- The intensity of my craving, that is, how much I desired this **second** drug in the past 24 hours was:
 None at all Slight Moderate Considerable Extreme

- Short
- Somewhat long
- Very long

Completed by (Initials):

All questions except 4 and 5 are assessed by properly trained personnel. The subject is asked about each of the items in lay language and the response is recorded on a scale of 0-7 with 0 being normal or no symptoms. For question 4 and 5, the subject is asked to mark the appropriate place on the line (on page 3) that describes each of the questions. The rater then transcribes that as the response to those questions.

Week

Date:

(mm/dd/yyyy)

Date of last cocaine use:

(mm/dd/yyyy)

1. Hyperphagia

- 0 = normal appetite
- 3-4 = eats a lot more than usual
- 7 = eats more than twice usual amount of food

2. Hypophagia

- 0 = normal appetite
- 3-4 = eats less than half of normal amount of food
- 7 = no appetite at all

3. Carbohydrate Craving

- 0 = no craving
- 3-4 = strong craving for sweets, cakes, and cookies half the time
- 7 = strong craving for sweets, cakes, and cookies all the time

4. Cocaine Craving Intensity

Please use subject intensity rating from pg. 3 of this form.

5. Cocaine Craving Frequency

Please use subject frequency rating from pg. 3 of this form.

6. Bradycardia

Please use scale below.

	0	1	2	3	4	5	6	7
Pulse (BPM)	>64	64-63	62-61	60-59	58-57	56-55	54-53	<53

7. Insomnia

- 0 = normal amount of sleep
- 3-4 = half of normal amount of sleep
- 7 = no sleep at all

8. Hypersomnia

- 0 = normal amount of sleep
- 3-4 = could sleep or does sleep half the day
- 7 = sleep or could sleep all the time

9. Anxiety

0 = usually does not feel anxious
3-4 = feels anxious half the time
7 = feels anxious all the time

10. Energy Level

0 = feels alert and has usual amount of energy
3-4 = feels tired half the time
7 = feels tired all the time

11. Activity Level

0 = no change in usual activities
3-4 = participates in half of usual activities
7 = no participation in usual activities

12. Tension

0-1 = rarely feel tense
3-4 = feels tense half the time
7 = feels tense most or all the time

13. Attention

0 = able to concentrate on reading, conversation, tasks, and make plans without difficulty
3-4 = has difficulty with the above half the time
7 = has difficulty with the above all the time

14. Paranoid Ideation

0 = no evidence of paranoid thoughts
3-4 = unable to trust anyone
5 = feels people are out to get him/her
7 = feels a specific person/group is plotting against him/her

15. Anhedonia

0 = ability to enjoy themselves remains unchanged
3-4 = able to enjoy themselves half of the time
7 = unable to enjoy themselves at all

16. Depression

0 = no feelings related to sadness or depression
3-4 = feels sad or depressed half the time
7 = feels depressed all of the time

17. Suicidality

0 = does not think about being dead
3-4 = feels like life is not worth living
7 = feels like actually ending life

18. Irritability

0 = feels that most things are not irritating
3-4 = feels that many things are irritating
7 = feels that mostly everything is irritating and upsetting

Cocaine Global Severity

At this time, how would you rate yourself overall for cocaine use and cocaine related problems?

- No problems
- Borderline problems
- Mild problems
- Moderate problems
- Marked problems
- Severe symptoms
- Most extreme problems possible

Global Improvement of Cocaine Dependence

How would you rate yourself for changes in cocaine use and cocaine related problems since the beginning of this study?

- Not assessed
- Very much improved
- Much improved
- Minimally improved
- No change
- Minimally worse
- Much worse
- Very much worse

Current Severity

Please rate the subject's current severity in the eight specific problem areas below.

	<u>None, Least Severe</u>						<u>Most Severe</u>
Reported Cocaine Use: (frequency and amount of cocaine used)	1	2	3	4	5	6	7
Cocaine Seeking: (craving for cocaine, effort to stop, and drug seeking behavior)	1	2	3	4	5	6	7
Reported Use of Other Drugs: (frequency and amount of non-cocaine drug/alcohol use)	1	2	3	4	5	6	7
Observable Psychiatric Symptoms: (orientation, memory, comprehension, disorganized thinking, rapid/retarded speech, agitation, grooming, hostility, irritability, affective disturbance)	1	2	3	4	5	6	7
Reported Psychiatric Symptoms: (mood disturbance, depression, anxiety, inner restlessness, covert anger, somatic symptoms, energy level, motivation, sleep, appetite, libido, anhedonia)	1	2	3	4	5	6	7
Physical/Medical Problems: (those that have emerged or gotten worse after drug use)	1	2	3	4	5	6	7
Maladaptive Coping in the Family/Social area: (movement away from healthy relationships)	1	2	3	4	5	6	7
Maladaptive Coping in Other areas: (e.g., employment, legal, housing, etc. movement away from problem solving in those areas)	1	2	3	4	5	6	7

Global Severity of Cocaine Dependence

Considering your total clinical experience with the cocaine dependent population, how severe are this subject's cocaine dependence symptoms at this time?

- Normal, no symptoms
- Borderline symptoms
- Mild symptoms
- Moderate symptoms
- Marked symptoms
- Severe symptoms
- Most extreme symptoms possible

Global Improvement of Cocaine Dependence

Rate the total improvement in the participant's cocaine dependence symptoms whether or not, in your judgment, it is due entirely to drug treatment. Compared to the subject's admission to the project, how much has the subject changed?

- Not assessed, first rating
- Very much improved
- Much improved
- Minimally improved
- No change
- Minimally worse
- Much worse
- Very much worse

This form is to be filled out for female subjects only. All female subjects must be tested at Screening/Baseline and have a negative pregnancy test in order to be eligible for this study.

What method of birth control is the participant currently using (prior to taking modafinil)?

- Oral contraceptive
- Barrier (diaphragm or condom plus spermicide)
- Levonorgestrel implant (Norplant)
- Intrauterine Contraceptive system (IUD)
- Medroxyprogesterone Acetate Contraceptive injection (Depo-Provera)
- Contraceptive patch
- Surgical Sterilization - Hysterectomy
- Surgical Sterilization - Tubal ligation

Unless surgically sterile or 2 years postmenopausal, does the subject agree to use an acceptable method of birth control during the study and 30 days after last dose of study drug?

- Yes No

If yes, mark below the acceptable method selected by the subject for use:

- barrier method with spermicide
- steroidal contraceptive [oral, Implanted, injected] used in conjunction with a barrier method
- Contraceptive patch used in conjunction with a barrier method
- Intrauterine device [IUD]

Was a pregnancy test performed?

- Yes No

If yes, date specimen collected

(mm/dd/yyyy)

Result:

- Negative Positive Unknown

If no, specify reason:

Is the subject lactating?

- Yes No

Cocaine

- The intensity of my craving, that is, how much I desired cocaine in the past 24 hours was:
 None at all Slight Moderate Considerable Extreme
- The frequency of my craving, that is, how often I desired cocaine in the past 24 hours was:
 Never Almost never Several times Regularly Almost constantly
- The length of time I spent craving for cocaine during the past 24 hours was:
 None at all Very short Short Somewhat long Very long
- Write in the number of times you think you had craving for cocaine during the past 24 hours:
- Write in the total time spent craving cocaine during the past 24 hours:
 hours minutes
- The worst day: During the past week my most intense craving occurred on the following day:
 Sunday Monday Tuesday Wednesday
 Thursday Friday Saturday All days the same (go to Q. 8)
- The date for that day was:
(mm/dd/yyyy)
- The intensity of my craving, that is, how much I desired cocaine on that worst day was:
 None at all Slight Moderate Considerable Extreme

Second Drug

- A 2nd craved drug during the past 24 hours was:
Mark only one of the following. If no 2nd craved drug, mark "None" and leave Questions 10-16 blank.
 None Downers or Sedatives (Barbiturates, etc.) Benzos (Valium, Xanax, etc.) Nicotine
 Alcohol Heroin or other Opiates (Morphine, etc.) Marijuana Other Specify
- The intensity of my craving, that is, how much I desired this **second** drug in the past 24 hours was:
 None at all Slight Moderate Considerable Extreme

Date:

(mm/dd/yyyy)

All questions except 4 and 5 are assessed by properly trained personnel. The subject is asked about each of the items in lay language and the response is recorded on a scale of 0-7 with 0 being normal or no symptoms. For question 4 and 5, the subject is asked to mark the appropriate place on the line (on page 3) that describes each of the questions. The rater then transcribes that as the response to those questions.

Date of last cocaine use:

(mm/dd/yyyy)

1. Hyperphagia

- 0 = normal appetite
- 3-4 = eats a lot more than usual
- 7 = eats more than twice usual amount of food

2. Hypophagia

- 0 = normal appetite
- 3-4 = eats less than half of normal amount of food
- 7 = no appetite at all

3. Carbohydrate Craving

- 0 = no craving
- 3-4 = strong craving for sweets, cakes, and cookies half the time
- 7 = strong craving for sweets, cakes, and cookies all the time

4. Cocaine Craving Intensity

Please use subject intensity rating from pg. 3 of this form.

5. Cocaine Craving Frequency

Please use subject frequency rating from pg. 3 of this form.

6. Bradycardia

Please use scale below.

	0	1	2	3	4	5	6	7
Pulse (BPM)	>64	64-63	62-61	60-59	58-57	56-55	54-53	<53

7. Insomnia

- 0 = normal amount of sleep
- 3-4 = half of normal amount of sleep
- 7 = no sleep at all

8. Hypersomnia

- 0 = normal amount of sleep
- 3-4 = could sleep or does sleep half the day
- 7 = sleep or could sleep all the time

Week

Date:

(mm/dd/yyyy)

9. Anxiety

0 = usually does not feel anxious
3-4 = feels anxious half the time
7 = feels anxious all the time

10. Energy Level

0 = feels alert and has usual amount of energy
3-4 = feels tired half the time
7 = feels tired all the time

11. Activity Level

0 = no change in usual activities
3-4 = participates in half of usual activities
7 = no participation in usual activities

12. Tension

0-1 = rarely feel tense
3-4 = feels tense half the time
7 = feels tense most or all the time

13. Attention

0 = able to concentrate on reading, conversation, tasks, and make plans without difficulty
3-4 = has difficulty with the above half the time
7 = has difficulty with the above all the time

14. Paranoid Ideation

0 = no evidence of paranoid thoughts
3-4 = unable to trust anyone
5 = feels people are out to get him/her
7 = feels a specific person/group is plotting against him/her

15. Anhedonia

0 = ability to enjoy themselves remains unchanged
3-4 = able to enjoy themselves half of the time
7 = unable to enjoy themselves at all

16. Depression

0 = no feelings related to sadness or depression
3-4 = feels sad or depressed half the time
7 = feels depressed all of the time

17. Suicidality

0 = does not think about being dead
3-4 = feels like life is not worth living
7 = feels like actually ending life

18. Irritability

0 = feels that most things are not irritating
3-4 = feels that many things are irritating
7 = feels that mostly everything is irritating and upsetting

Cocaine Global Severity

At this time, how would you rate yourself overall for cocaine use and cocaine related problems?

- No problems
- Borderline problems
- Mild problems
- Moderate problems
- Marked problems
- Severe symptoms
- Most extreme problems possible

Global Improvement of Cocaine Dependence

How would you rate yourself for changes in cocaine use and cocaine related problems since the beginning of this study?

- Not assessed
- Very much improved
- Much improved
- Minimally improved
- No change
- Minimally worse
- Much worse
- Very much worse

Current Severity

Please rate the subject's current severity in the eight specific problem areas below.

	<u>None, Least Severe</u>						<u>Most Severe</u>
Reported Cocaine Use: (frequency and amount of cocaine used)	1	2	3	4	5	6	7
Cocaine Seeking: (craving for cocaine, effort to stop, and drug seeking behavior)	1	2	3	4	5	6	7
Reported Use of Other Drugs: (frequency and amount of non-cocaine drug/alcohol use)	1	2	3	4	5	6	7
Observable Psychiatric Symptoms: (orientation, memory, comprehension, disorganized thinking, rapid/retarded speech, agitation, grooming, hostility, irritability, affective disturbance)	1	2	3	4	5	6	7
Reported Psychiatric Symptoms: (mood disturbance, depression, anxiety, inner restlessness, covert anger, somatic symptoms, energy level, motivation, sleep, appetite, libido, anhedonia)	1	2	3	4	5	6	7
Physical/Medical Problems: (those that have emerged or gotten worse after drug use)	1	2	3	4	5	6	7
Maladaptive Coping in the Family/Social area: (movement away from healthy relationships)	1	2	3	4	5	6	7
Maladaptive Coping in Other areas: (e.g., employment, legal, housing, etc. movement away from problem solving in those areas)	1	2	3	4	5	6	7

Global Severity of Cocaine Dependence

Considering your total clinical experience with the cocaine dependent population, how severe are this subject's cocaine dependence symptoms at this time?

- Normal, no symptoms
- Borderline symptoms
- Mild symptoms
- Moderate symptoms
- Marked symptoms
- Severe symptoms
- Most extreme symptoms possible

Global Improvement of Cocaine Dependence

Rate the total improvement in the participant's cocaine dependence symptoms whether or not, in your judgment, it is due entirely to drug treatment. Compared to the subject's admission to the project, how much has the subject changed?

- Not assessed, first rating
- Very much improved
- Much improved
- Minimally improved
- No change
- Minimally worse
- Much worse
- Very much worse

9. Epithelial Cells	<input type="text"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="text"/>

****Abnormal** is any value outside the normal laboratory range.**

For Glucose, Protein, Ketones, and Occult Blood use the following scale to report Values:

- 1 = Absent
- 0 = Trace
- 1
- 2
- 3
- 4

For WBC, RBC, and Epithelial Cells use the following scale to report Values:

- 1 = None (1 – 5)
- 2 = Few (6 – 10)
- 3 = Moderate (11 – 50)
- 4 = Heavy (>50)

Check here if this form is completed for retest of previous lab tests.

Cocaine

1. The intensity of my craving, that is, how much I desired cocaine in the past 24 hours was:

- None at all Slight Moderate Considerable Extreme

2. The frequency of my craving, that is, how often I desired cocaine in the past 24 hours was:

- Never Almost never Several times Regularly Almost constantly

3. The length of time I spent craving for cocaine during the past 24 hours was:

- None at all Very short Short Somewhat long Very long

4. Write in the number of times you think you had craving for cocaine during the past 24 hours:

5. Write in the total time spent craving cocaine during the past 24 hours:

 hours minutes

6. The worst day: During the past week my most intense craving occurred on the following day:

- Sunday Monday Tuesday Wednesday
- Thursday Friday Saturday All days the same (go to Q. 8)

7. The date for that day was:

(mm/dd/yyyy)

8. The intensity of my craving, that is, how much I desired cocaine on that worst day was:

- None at all Slight Moderate Considerable Extreme

Second Drug

9. A 2nd craved drug during the past 24 hours was:

Mark only one of the following. If no 2nd craved drug, mark "None" and leave Questions 10-16 blank.

- None Downers or Sedatives (Barbiturates, etc.) Benzos (Valium, Xanax, etc.) Nicotine
- Alcohol Heroin or other Opiates (Morphine, etc.) Marijuana Other Specify

10. The intensity of my craving, that is, how much I desired this **second** drug in the past 24 hours was:

- None at all Slight Moderate Considerable Extreme

Week

Date:

(mm/dd/yyyy)

All questions except 4 and 5 are assessed by properly trained personnel. The subject is asked about each of the items in lay language and the response is recorded on a scale of 0-7 with 0 being normal or no symptoms. For question 4 and 5, the subject is asked to mark the appropriate place on the line (on page 3) that describes each of the questions. The rater then transcribes that as the response to those questions.

Date of last cocaine use:

(mm/dd/yyyy)

1. Hyperphagia

- 0 = normal appetite
- 3-4 = eats a lot more than usual
- 7 = eats more than twice usual amount of food

2. Hypophagia

- 0 = normal appetite
- 3-4 = eats less than half of normal amount of food
- 7 = no appetite at all

3. Carbohydrate Craving

- 0 = no craving
- 3-4 = strong craving for sweets, cakes, and cookies half the time
- 7 = strong craving for sweets, cakes, and cookies all the time

4. Cocaine Craving Intensity

Please use subject intensity rating from pg. 3 of this form.

5. Cocaine Craving Frequency

Please use subject frequency rating from pg. 3 of this form.

6. Bradycardia

Please use scale below.

	0	1	2	3	4	5	6	7
Pulse (BPM)	>64	64-63	62-61	60-59	58-57	56-55	54-53	<53

7. Insomnia

- 0 = normal amount of sleep
- 3-4 = half of normal amount of sleep
- 7 = no sleep at all

8. Hypersomnia

- 0 = normal amount of sleep
- 3-4 = could sleep or does sleep half the day
- 7 = sleep or could sleep all the time

Site ID:

Subject ID #.

Subject Initials

Week

Date:

(mm/dd/yyyy)

9. Anxiety

0 = usually does not feel anxious
3-4 = feels anxious half the time
7 = feels anxious all the time

10. Energy Level

0 = feels alert and has usual amount of energy
3-4 = feels tired half the time
7 = feels tired all the time

11. Activity Level

0 = no change in usual activities
3-4 = participates in half of usual activities
7 = no participation in usual activities

12. Tension

0-1 = rarely feel tense
3-4 = feels tense half the time
7 = feels tense most or all the time

13. Attention

0 = able to concentrate on reading, conversation, tasks, and make plans without difficulty
3-4 = has difficulty with the above half the time
7 = has difficulty with the above all the time

14. Paranoid Ideation

0 = no evidence of paranoid thoughts
3-4 = unable to trust anyone
5 = feels people are out to get him/her
7 = feels a specific person/group is plotting against him/her

15. Anhedonia

0 = ability to enjoy themselves remains unchanged
3-4 = able to enjoy themselves half of the time
7 = unable to enjoy themselves at all

16. Depression

0 = no feelings related to sadness or depression
3-4 = feels sad or depressed half the time
7 = feels depressed all of the time

17. Suicidality

0 = does not think about being dead
3-4 = feels like life is not worth living
7 = feels like actually ending life

18. Irritability

0 = feels that most things are not irritating
3-4 = feels that many things are irritating
7 = feels that mostly everything is irritating and upsetting

Date:	<input type="text"/>			
	<i>(mm/dd/yyyy)</i>			

Cocaine Global Severity

At this time, how would you rate yourself overall for cocaine use and cocaine related problems?

- No problems
- Borderline problems
- Mild problems
- Moderate problems
- Marked problems
- Severe symptoms
- Most extreme problems possible

Global Improvement of Cocaine Dependence

How would you rate yourself for changes in cocaine use and cocaine related problems since the beginning of this study?

- Not assessed
- Very much improved
- Much improved
- Minimally improved
- No change
- Minimally worse
- Much worse
- Very much worse

Global Severity of Cocaine Dependence

Considering your total clinical experience with the cocaine dependent population, how severe are this subject's cocaine dependence symptoms at this time?

- Normal, no symptoms
- Borderline symptoms
- Mild symptoms
- Moderate symptoms
- Marked symptoms
- Severe symptoms
- Most extreme symptoms possible

Global Improvement of Cocaine Dependence

Rate the total improvement in the participant's cocaine dependence symptoms whether or not, in your judgment, it is due entirely to drug treatment. Compared to the subject's admission to the project, how much has the subject changed?

- Not assessed, first rating
- Very much improved
- Much improved
- Minimally improved
- No change
- Minimally worse
- Much worse
- Very much worse

Completed by (Initials):

	Site ID:	Subject ID #.	Subject Initials	Week
	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
Date:	<input type="text"/>			
	(mm/dd/yyyy)			

1. Depressed Mood

(sad, hopeless, helpless, worthless)

- 0 = Absent
- 1 = These feeling states indicated only on questioning.
- 2 = These feeling states spontaneously reported verbally.
- 3 = Communicates feeling states nonverbally – i.e., through facial expression, posture, voice, and tendency to weep.
- 4 = Subject reports virtually only these feeling states in his/her spontaneous verbal and nonverbal communication.

2. Feelings of Guilt

- 0 = Absent
- 1 = Self-reproach, feels s/he has let people down.
- 2 = Ideas of guilt or rumination over past errors or sinful deeds.
- 3 = Present illness is a punishment. Delusions of guilt.
- 4 = Hears accusatory or denunciatory voices and/or experiences threatening visual hallucinations.

3. Suicide

- 0 = Absent
- 1 = Feels life is not worth living.
- 2 = Wishes s/he were dead or any thoughts of possible death to self.
- 3 = Suicide ideas or gesture.
- 4 = Attempts at suicide (any serious attempt rates 4).

4. Insomnia Early

- 0 = No difficulty falling asleep.
- 1 = Complains of occasional difficulty falling asleep. (i.e., more than ½ hour)
- 2 = Complains of nightly difficulty falling asleep.

5. Insomnia Middle

- 0 = No difficulty.
- 1 = Subject complains of being restless and disturbed during the night.
- 2 = Waking during the night – any getting out of bed rates 2 (except for purposes of voiding).

6. Insomnia Late

- 0 = No difficulty.
- 1 = Waking in early hours of the morning but goes back to sleep.
- 2 = Unable to fall asleep again if gets out of bed.

	Site ID:	Subject ID #.	Subject Initials	Week
	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>	<input style="width: 100%;" type="text"/>
Date:	<input style="width: 100%;" type="text"/>			
	<i>(mm/dd/yyyy)</i>			

7. Work and Activities

- 0 = No difficulty
- 1 = Thoughts and feelings of incapacity, fatigue, or weakness related to activities; work or hobbies.
- 2 = Loss of interest in activity; hobbies or work – either directly reported by patient, or indirect in listlessness, indecision and vacillation (*feels s/he has to push self to work or activities*).
- 3 = Decrease in actual time spent in activities or decrease in productivity.
- 4 = Stopped working because of present illness.

8. Retardation

(slowness of thought and speech; impaired ability to concentrate; decreased motor activity)

- 0 = Normal speech and thought
- 1 = Slight retardation at interview
- 2 = Obvious retardation at interview
- 3 = Interview difficult
- 4 = Complete stupor

9. Agitation

- 0 = None
- 1 = Fidgetiness
- 2 = Playing with hands, hair, etc.
- 3 = Moving about, can't sit still
- 4 = Hand-wringing, nail-biting, hair-pulling, biting of lips

10. Anxiety Psychic

- 0 = No difficulty
- 1 = Subjective tension and irritability
- 2 = Worrying about minor matters
- 3 = Apprehensive attitude apparent in face or speech
- 4 = Fears expressed without questioning

11. Anxiety Somatic

(Physiological concomitants of anxiety such as: Gastrointestinal: dry mouth, wind, indigestion, diarrhea, cramps, belching. Cardiovascular: palpitations, headaches. Respiratory: hyperventilation, sighing. Urinary frequency. Sweating.)

- 0 = Absent
- 1 = Mild
- 2 = Moderate
- 3 = Severe
- 4 = Incapacitating

12. Somatic Symptoms Gastrointestinal

- 0 = None
- 1 = Loss of appetite but eating without encouragement. Heavy feelings in abdomen.
- 2 = Difficulty eating without urging. Requests or requires laxatives or medication for bowels or medication for G.I. symptoms.

	Site ID:	Subject ID #.	Subject Initials	Week
	<input style="width: 100%; height: 20px;" type="text"/>	<input style="width: 100%; height: 20px;" type="text"/>	<input style="width: 100%; height: 20px;" type="text"/>	<input style="width: 100%; height: 20px;" type="text"/>
Date:	<input style="width: 100%; height: 20px;" type="text"/>			
	<i>(mm/dd/yyyy)</i>			

13. Somatic Symptoms General

- 0 = None
- 1 = Heaviness in limbs, back or head. Backaches, headache, muscle aches. Loss of energy and fatigability.
- 2 = Any clear-cut symptom rates 2.

14. Genital Symptoms

(such as loss of libido and menstrual disturbances)

- 0 = Absent
- 1 = Mild
- 2 = Severe

15. Hypochondriasis

- 0 = Not present
- 1 = Self-absorption (bodily)
- 2 = Preoccupation with health
- 3 = Frequent complaints, requests for help, etc.
- 4 = Hypochondriacal delusions

16. Loss of Weight

- 0 = No weight loss
- 1 = Probable weight loss associated with present illness.
- 2 = Definite weight loss (according to subject)

17. Insight

- 0 = Acknowledges being depressed and ill.
- 1 = Acknowledges illness but attributes cause to bad food, climate, overwork, virus, need for rest, etc.
- 2 = Denies being ill at all

18. Diurnal Variation

- 0 = No variation
 - 1 = (Mild) Doubtful or slight variation
 - 2 = (Severe) Clear or marked variation
- If answer is 1 or 2, note whether the symptoms are worse in: O A.M. O P.M.

19. Depersonalization and Derealization

(symptoms such as feelings of unreality and nihilistic ideas)

- 0 = Absent
- 1 = Mild
- 2 = Moderate
- 3 = Severe
- 4 = Incapacitating

	Site ID:	Subject ID #.	Subject Initials	Week
	<input style="width: 150px; height: 25px;" type="text"/>	<input style="width: 150px; height: 25px;" type="text"/>	<input style="width: 150px; height: 25px;" type="text"/>	<input style="width: 50px; height: 25px;" type="text"/>
Date:	<input style="width: 180px; height: 25px;" type="text"/>			
	(mm/dd/yyyy)			

20. Paranoid Symptoms

- 0 = None
- 1 = Suspicious
- 2 = Ideas of reference
- 3 = Delusions of reference and persecution

21. Obsessive and Compulsive Symptoms

- 0 = Absent
- 1 = Mild
- 2 = Severe

22. Helplessness

- 0 = Not present
- 1 = Subjective feelings which are elicited only by inquiry.
- 2 = Subject volunteers his helpless feelings.
- 3 = Requires urging, guidance and reassurance to accomplish chores or personal hygiene.
- 4 = Despite urging, does not perform necessary chores or personal hygiene.

23. Hopelessness

- 0 = Not present
- 1 = Intermittently doubts that "things will improve" but can be reassured.
- 2 = Consistently feels "hopeless" but accepts reassurances.
- 3 = Expresses feelings of discouragement, despair, pessimism about future, which cannot be dispelled.
- 4 = Spontaneously and inappropriately perseverates, "I'll never get well," or its equivalent

24. Worthlessness

(ranges from mild loss of self-esteem, feelings of inferiority, self-depreciation (loss of self-esteem) to delusion notions of worthlessness)

- 0 = Not present
- 1 = Indicates feelings of worthlessness (loss of self esteem) only on questioning.
- 2 = Spontaneously indicates feelings of worthlessness (loss of self esteem).
- 3 = Different from 2 by degree: Subject volunteers that s/he is "no good," "inferior," etc.
- 4 = Expresses feelings of total worthlessness – e.g. "I am a heap of garbage" or equivalent

Treatment Week 4

Site ID: Subject ID #: Subject Initials: Week:

Date:
(mm/dd/yyyy)

This form is to be filled out for female subjects only. All female subjects must be tested at Screening/Baseline and have a negative pregnancy test in order to be eligible for this study.

What method of birth control is the participant currently using (prior to taking modafinil)?

- Oral contraceptive
- Barrier (diaphragm or condom plus spermicide)
- Levonorgestrel implant (Norplant)
- Intrauterine Contraceptive system (IUD)
- Medroxyprogesterone Acetate Contraceptive injection (Depo-Provera)
- Surgical Sterilization - Hysterectomy
- Surgical Sterilization - Tubal ligation

Unless surgically sterile or 2 years postmenopausal, does the subject agree to use an acceptable method of birth control during the study and 30 days after last dose of study drug?

- Yes
- No

If yes, mark below the acceptable method selected by the subject for use:

- barrier method with spermicide
- steroidal contraceptive [oral, Implanted, injected] used in conjunction with a barrier method
- Contraceptive patch used in conjunction with a barrier method
- Intrauterine device [IUD]

Was a pregnancy test performed? Yes No

If yes, date specimen collected
(mm/dd/yyyy)

Result: Negative Positive Unknown

If no, specify reason:

Is the subject lactating? Yes No

Cocaine

- The intensity of my craving, that is, how much I desired cocaine in the past 24 hours was:
 None at all Slight Moderate Considerable Extreme
- The frequency of my craving, that is, how often I desired cocaine in the past 24 hours was:
 Never Almost never Several times Regularly Almost constantly
- The length of time I spent craving for cocaine during the past 24 hours was:
 None at all Very short Short Somewhat long Very long
- Write in the number of times you think you had craving for cocaine during the past 24 hours:
- Write in the total time spent craving cocaine during the past 24 hours:
 hours minutes
- The worst day: During the past week my most intense craving occurred on the following day:
 Sunday Monday Tuesday Wednesday
 Thursday Friday Saturday All days the same (go to Q. 8)
- The date for that day was:
(mm/dd/yyyy)

- The intensity of my craving, that is, how much I desired cocaine on that worst day was:
 None at all Slight Moderate Considerable Extreme

Second Drug

- A 2nd craved drug during the past 24 hours was:
Mark only one of the following. If no 2nd craved drug, mark "None" and leave Questions 10-16 blank.
 None Downers or Sedatives (Barbiturates, etc.) Benzos (Valium, Xanax, etc.) Nicotine
 Alcohol Heroin or other Opiates (Morphine, etc.) Marijuana Other Specify
- The intensity of my craving, that is, how much I desired this **second** drug in the past 24 hours was:
 None at all Slight Moderate Considerable Extreme

Treatment Week 5

Site ID: Subject ID #: Subject Initials: Week:

All questions except 4 and 5 are assessed by properly trained personnel. The subject is asked about each of the items in lay language and the response is recorded on a scale of 0-7 with 0 being normal or no symptoms. For question 4 and 5, the subject is asked to mark the appropriate place on the line (on page 3) that describes each of the questions. The rater then transcribes that as the response to those questions.

Date of last cocaine use:
(mm/dd/yyyy)

1. Hyperphagia

0 = normal appetite
3-4 = eats a lot more than usual
7 = eats more than twice usual amount of food

2. Hypophagia

0 = normal appetite
3-4 = eats less than half of normal amount of food
7 = no appetite at all

3. Carbohydrate Craving

0 = no craving
3-4 = strong craving for sweets, cakes, and cookies half the time
7 = strong craving for sweets, cakes, and cookies all the time

4. Cocaine Craving Intensity *Please use subject intensity rating from pg. 3 of this form.*

5. Cocaine Craving Frequency *Please use subject frequency rating from pg. 3 of this form.*

6. Bradycardia *Please use scale below.*

	0	1	2	3	4	5	6	7
Pulse (BPM)	>64	64-63	62-61	60-59	58-57	56-55	54-53	<53

7. Insomnia

0 = normal amount of sleep
3-4 = half of normal amount of sleep
7 = no sleep at all

8. Hypersomnia

0 = normal amount of sleep
3-4 = could sleep or does sleep half the day
7 = sleep or could sleep all the time

Subject Initials

Week

Date:

(mm/dd/yyyy)

9. Anxiety

- 0 = usually does not feel anxious
- 3-4 = feels anxious half the time
- 7 = feels anxious all the time

10. Energy Level

- 0 = feels alert and has usual amount of energy
- 3-4 = feels tired half the time
- 7 = feels tired all the time

11. Activity Level

- 0 = no change in usual activities
- 3-4 = participates in half of usual activities
- 7 = no participation in usual activities

12. Tension

- 0-1 = rarely feel tense
- 3-4 = feels tense half the time
- 7 = feels tense most or all the time

13. Attention

- 0 = able to concentrate on reading, conversation, tasks, and make plans without difficulty
- 3-4 = has difficulty with the above half the time
- 7 = has difficulty with the above all the time

14. Paranoid Ideation

- 0 = no evidence of paranoid thoughts
- 3-4 = unable to trust anyone
- 5 = feels people are out to get him/her
- 7 = feels a specific person/group is plotting against him/her

15. Anhedonia

- 0 = ability to enjoy themselves remains unchanged
- 3-4 = able to enjoy themselves half of the time
- 7 = unable to enjoy themselves at all

16. Depression

- 0 = no feelings related to sadness or depression
- 3-4 = feels sad or depressed half the time
- 7 = feels depressed all of the time

17. Suicidality

- 0 = does not think about being dead
- 3-4 = feels like life is not worth living
- 7 = feels like actually ending life

18. Irritability

- 0 = feels that most things are not irritating
- 3-4 = feels that many things are irritating
- 7 = feels that mostly everything is irritating and upsetting

Global Severity of Cocaine Dependence

Considering your total clinical experience with the cocaine dependent population, how severe are this subject's cocaine dependence symptoms at this time?

- Normal, no symptoms
- Borderline symptoms
- Mild symptoms
- Moderate symptoms
- Marked symptoms
- Severe symptoms
- Most extreme symptoms possible

Global Improvement of Cocaine Dependence

Rate the total improvement in the participant's cocaine dependence symptoms whether or not, in your judgment, it is due entirely to drug treatment. Compared to the subject's admission to the project, how much has the subject changed?

- Not assessed, first rating
- Very much improved
- Much improved
- Minimally improved
- No change
- Minimally worse
- Much worse
- Very much worse

Cocaine

- The intensity of my craving, that is, how much I desired cocaine in the past 24 hours was:
 None at all Slight Moderate Considerable Extreme
- The frequency of my craving, that is, how often I desired cocaine in the past 24 hours was:
 Never Almost never Several times Regularly Almost constantly
- The length of time I spent craving for cocaine during the past 24 hours was:
 None at all Very short Short Somewhat long Very long
- Write in the number of times you think you had craving for cocaine during the past 24 hours:
- Write in the total time spent craving cocaine during the past 24 hours:
 hours minutes
- The worst day: During the past week my most intense craving occurred on the following day:
 Sunday Monday Tuesday Wednesday
 Thursday Friday Saturday All days the same (go to Q. 8)
- The date for that day was:
(mm/dd/yyyy)
- The intensity of my craving, that is, how much I desired cocaine on that worst day was:
 None at all Slight Moderate Considerable Extreme

Second Drug

- A 2nd craved drug during the past 24 hours was:
Mark only one of the following. If no 2nd craved drug, mark "None" and leave Questions 10-16 blank.
 None Downers or Sedatives (Barbiturates, etc.) Benzos (Valium, Xanax, etc.) Nicotine
 Alcohol Heroin or other Opiates (Morphine, etc.) Marijuana Other Specify
- The intensity of my craving, that is, how much I desired this **second** drug in the past 24 hours was:
 None at all Slight Moderate Considerable Extreme

Week

Date:

(mm/dd/yyyy)

All questions except 4 and 5 are assessed by properly trained personnel. The subject is asked about each of the items in lay language and the response is recorded on a scale of 0-7 with 0 being normal or no symptoms. For question 4 and 5, the subject is asked to mark the appropriate place on the line (on page 3) that describes each of the questions. The rater then transcribes that as the response to those questions.

Date of last cocaine use:

(mm/dd/yyyy)

1. Hyperphagia

- 0 = normal appetite
- 3-4 = eats a lot more than usual
- 7 = eats more than twice usual amount of food

2. Hypophagia

- 0 = normal appetite
- 3-4 = eats less than half of normal amount of food
- 7 = no appetite at all

3. Carbohydrate Craving

- 0 = no craving
- 3-4 = strong craving for sweets, cakes, and cookies half the time
- 7 = strong craving for sweets, cakes, and cookies all the time

4. Cocaine Craving Intensity

Please use subject intensity rating from pg. 3 of this form.

5. Cocaine Craving Frequency

Please use subject frequency rating from pg. 3 of this form.

6. Bradycardia

Please use scale below.

	0	1	2	3	4	5	6	7
Pulse (BPM)	>64	64-63	62-61	60-59	58-57	56-55	54-53	<53

7. Insomnia

- 0 = normal amount of sleep
- 3-4 = half of normal amount of sleep
- 7 = no sleep at all

8. Hypersomnia

- 0 = normal amount of sleep
- 3-4 = could sleep or does sleep half the day
- 7 = sleep or could sleep all the time

Site ID:	Subject ID #:	Subject Initials	Week
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
Date:			
<input type="text"/>			
(mm/dd/yyyy)			

9. Anxiety
0 = usually does not feel anxious
3-4 = feels anxious half the time
7 = feels anxious all the time

10. Energy Level
0 = feels alert and has usual amount of energy
3-4 = feels tired half the time
7 = feels tired all the time

11. Activity Level
0 = no change in usual activities
3-4 = participates in half of usual activities
7 = no participation in usual activities

12. Tension
0-1 = rarely feel tense
3-4 = feels tense half the time
7 = feels tense most or all the time

13. Attention
0 = able to concentrate on reading, conversation, tasks, and make plans without difficulty
3-4 = has difficulty with the above half the time
7 = has difficulty with the above all the time

14. Paranoid Ideation
0 = no evidence of paranoid thoughts
3-4 = unable to trust anyone
5 = feels people are out to get him/her
7 = feels a specific person/group is plotting against him/her

15. Anhedonia
0 = ability to enjoy themselves remains unchanged
3-4 = able to enjoy themselves half of the time
7 = unable to enjoy themselves at all

16. Depression
0 = no feelings related to sadness or depression
3-4 = feels sad or depressed half the time
7 = feels depressed all of the time

17. Suicidality
0 = does not think about being dead
3-4 = feels like life is not worth living
7 = feels like actually ending life

18. Irritability
0 = feels that most things are not irritating
3-4 = feels that many things are irritating
7 = feels that mostly everything is irritating and upsetting

Cocaine Global Severity

At this time, how would you rate yourself overall for cocaine use and cocaine related problems?

- No problems
- Borderline problems
- Mild problems
- Moderate problems
- Marked problems
- Severe symptoms
- Most extreme problems possible

Global Improvement of Cocaine Dependence

How would you rate yourself for changes in cocaine use and cocaine related problems since the beginning of this study?

- Not assessed
- Very much improved
- Much improved
- Minimally improved
- No change
- Minimally worse
- Much worse
- Very much worse

Global Severity of Cocaine Dependence

Considering your total clinical experience with the cocaine dependent population, how severe are this subject's cocaine dependence symptoms at this time?

- Normal, no symptoms
- Borderline symptoms
- Mild symptoms
- Moderate symptoms
- Marked symptoms
- Severe symptoms
- Most extreme symptoms possible

Global Improvement of Cocaine Dependence

Rate the total improvement in the participant's cocaine dependence symptoms whether or not, in your judgment, it is due entirely to drug treatment. Compared to the subject's admission to the project, how much has the subject changed?

- Not assessed, first rating
- Very much improved
- Much improved
- Minimally improved
- No change
- Minimally worse
- Much worse
- Very much worse

This form is to be filled out for female subjects only. All female subjects must be tested at Screening/Baseline and have a negative pregnancy test in order to be eligible for this study.

What method of birth control is the participant currently using (prior to taking modafinil)?

- Oral contraceptive
- Barrier (diaphragm or condom plus spermicide)
- Levonorgestrel implant (Norplant)
- Intrauterine Contraceptive system (IUD)
- Medroxyprogesterone Acetate Contraceptive injection (Depo-Provera)
- Contraceptive patch
- Surgical Sterilization - Hysterectomy
- Surgical Sterilization - Tubal ligation

Unless surgically sterile or 2 years postmenopausal, does the subject agree to use an acceptable method of birth control during the study and 30 days after last dose of study drug?

- Yes
- No

If yes, mark below the acceptable method selected by the subject for use:

- barrier method with spermicide
- steroidal contraceptive [oral, Implanted, injected] used in conjunction with a barrier method
- Contraceptive patch used in conjunction with a barrier method
- Intrauterine device [IUD]

Was a pregnancy test performed?

- Yes
- No

If yes, date specimen collected

(mm/dd/yyyy)

Result: Negative Positive Unknown

If no, specify reason:

Is the subject lactating?

- Yes
- No

(mm/dd/yyyy)

All questions except 4 and 5 are assessed by properly trained personnel. The subject is asked about each of the items in lay language and the response is recorded on a scale of 0-7 with 0 being normal or no symptoms. For question 4 and 5, the subject is asked to mark the appropriate place on the line (on page 3) that describes each of the questions. The rater then transcribes that as the response to those questions.

Date of last cocaine use:

(mm/dd/yyyy)

1. Hyperphagia

- 0 = normal appetite
- 3-4 = eats a lot more than usual
- 7 = eats more than twice usual amount of food

2. Hypophagia

- 0 = normal appetite
- 3-4 = eats less than half of normal amount of food
- 7 = no appetite at all

3. Carbohydrate Craving

- 0 = no craving
- 3-4 = strong craving for sweets, cakes, and cookies half the time
- 7 = strong craving for sweets, cakes, and cookies all the time

4. Cocaine Craving Intensity

Please use subject intensity rating from pg. 3 of this form.

5. Cocaine Craving Frequency

Please use subject frequency rating from pg. 3 of this form.

6. Bradycardia

Please use scale below.

	0	1	2	3	4	5	6	7
Pulse (BPM)	>64	64-63	62-61	60-59	58-57	56-55	54-53	<53

7. Insomnia

- 0 = normal amount of sleep
- 3-4 = half of normal amount of sleep
- 7 = no sleep at all

8. Hypersomnia

- 0 = normal amount of sleep
- 3-4 = could sleep or does sleep half the day
- 7 = sleep or could sleep all the time

Site ID:

Subject ID #.

Subject Initials

Week

Date:

(mm/dd/yyyy)

9. Anxiety

- 0 = usually does not feel anxious
- 3-4 = feels anxious half the time
- 7 = feels anxious all the time

10. Energy Level

- 0 = feels alert and has usual amount of energy
- 3-4 = feels tired half the time
- 7 = feels tired all the time

11. Activity Level

- 0 = no change in usual activities
- 3-4 = participates in half of usual activities
- 7 = no participation in usual activities

12. Tension

- 0-1 = rarely feel tense
- 3-4 = feels tense half the time
- 7 = feels tense most or all the time

13. Attention

- 0 = able to concentrate on reading, conversation, tasks, and make plans without difficulty
- 3-4 = has difficulty with the above half the time
- 7 = has difficulty with the above all the time

14. Paranoid Ideation

- 0 = no evidence of paranoid thoughts
- 3-4 = unable to trust anyone
- 5 = feels people are out to get him/her
- 7 = feels a specific person/group is plotting against him/her

15. Anhedonia

- 0 = ability to enjoy themselves remains unchanged
- 3-4 = able to enjoy themselves half of the time
- 7 = unable to enjoy themselves at all

16. Depression

- 0 = no feelings related to sadness or depression
- 3-4 = feels sad or depressed half the time
- 7 = feels depressed all of the time

17. Suicidality

- 0 = does not think about being dead
- 3-4 = feels like life is not worth living
- 7 = feels like actually ending life

18. Irritability

- 0 = feels that most things are not irritating
- 3-4 = feels that many things are irritating
- 7 = feels that mostly everything is irritating and upsetting

Global Severity of Cocaine Dependence

Considering your total clinical experience with the cocaine dependent population, how severe are this subject's cocaine dependence symptoms at this time?

- Normal, no symptoms
- Borderline symptoms
- Mild symptoms
- Moderate symptoms
- Marked symptoms
- Severe symptoms
- Most extreme symptoms possible

Global Improvement of Cocaine Dependence

Rate the total improvement in the participant's cocaine dependence symptoms whether or not, in your judgment, it is due entirely to drug treatment. Compared to the subject's admission to the project, how much has the subject changed?

- Not assessed, first rating
- Very much improved
- Much improved
- Minimally improved
- No change
- Minimally worse
- Much worse
- Very much worse

11. The frequency of my craving, that is, how often I desired this **second** drug in the past 24 hours was:

- Never Almost never Several times Regularly Almost constantly

12. The length of time I spent in craving for this **second** drug during the past 24 hours was:

- None at all Very short Short Somewhat long Very long

Third Drug

13. A 3rd craved drug during the past 24 hours was:

Mark only one of the following. If no 3rd craved drug, mark "None" and leave questions 14-16 blank.

- None Downers or Sedatives (Barbiturates, etc.) Benzos (Valium, Xanax, etc.) Nicotine
 Alcohol Heroin or other Opiates (Morphine, etc.) Marijuana Other Specify

14. The intensity of my craving, that is, how much I desired this **third** drug in the past 24 hours was:

- None at all Slight Moderate Considerable Extreme

15. The frequency of my craving, that is, how often I desired this **third** drug in the past 24 hours was:

- Never Almost never Several times Regularly Almost constantly

16. The length of time I spent in craving for this **third** drug during the past 24 hours was:

- None at all Very short Short Somewhat long Very long

All questions except 4 and 5 are assessed by properly trained personnel. The subject is asked about each of the items in lay language and the response is recorded on a scale of 0-7 with 0 being normal or no symptoms. For question 4 and 5, the subject is asked to mark the appropriate place on the line (on page 3) that describes each of the questions. The rater then transcribes that as the response to those questions.

Date of last cocaine use:

(mm/dd/yyyy)

1. Hyperphagia

- 0 = normal appetite
- 3-4 = eats a lot more than usual
- 7 = eats more than twice usual amount of food

2. Hypophagia

- 0 = normal appetite
- 3-4 = eats less than half of normal amount of food
- 7 = no appetite at all

3. Carbohydrate Craving

- 0 = no craving
- 3-4 = strong craving for sweets, cakes, and cookies half the time
- 7 = strong craving for sweets, cakes, and cookies all the time

4. Cocaine Craving Intensity

Please use subject intensity rating from pg. 3 of this form.

5. Cocaine Craving Frequency

Please use subject frequency rating from pg. 3 of this form.

6. Bradycardia

Please use scale below.

	0	1	2	3	4	5	6	7
Pulse (BPM)	>64	64-63	62-61	60-59	58-57	56-55	54-53	<53

7. Insomnia

- 0 = normal amount of sleep
- 3-4 = half of normal amount of sleep
- 7 = no sleep at all

8. Hypersomnia

- 0 = normal amount of sleep
- 3-4 = could sleep or does sleep half the day
- 7 = sleep or could sleep all the time

Week

Date:

(mm/dd/yyyy)

9. Anxiety

- 0 = usually does not feel anxious
- 3-4 = feels anxious half the time
- 7 = feels anxious all the time

10. Energy Level

- 0 = feels alert and has usual amount of energy
- 3-4 = feels tired half the time
- 7 = feels tired all the time

11. Activity Level

- 0 = no change in usual activities
- 3-4 = participates in half of usual activities
- 7 = no participation in usual activities

12. Tension

- 0-1 = rarely feel tense
- 3-4 = feels tense half the time
- 7 = feels tense most or all the time

13. Attention

- 0 = able to concentrate on reading, conversation, tasks, and make plans without difficulty
- 3-4 = has difficulty with the above half the time
- 7 = has difficulty with the above all the time

14. Paranoid Ideation

- 0 = no evidence of paranoid thoughts
- 3-4 = unable to trust anyone
- 5 = feels people are out to get him/her
- 7 = feels a specific person/group is plotting against him/her

15. Anhedonia

- 0 = ability to enjoy themselves remains unchanged
- 3-4 = able to enjoy themselves half of the time
- 7 = unable to enjoy themselves at all

16. Depression

- 0 = no feelings related to sadness or depression
- 3-4 = feels sad or depressed half the time
- 7 = feels depressed all of the time

17. Suicidality

- 0 = does not think about being dead
- 3-4 = feels like life is not worth living
- 7 = feels like actually ending life

18. Irritability

- 0 = feels that most things are not irritating
- 3-4 = feels that many things are irritating
- 7 = feels that most things are irritating and upsetting

Global Severity of Cocaine Dependence

Considering your total clinical experience with the cocaine dependent population, how severe are this subject's cocaine dependence symptoms at this time?

- Normal, no symptoms
- Borderline symptoms
- Mild symptoms
- Moderate symptoms
- Marked symptoms
- Severe symptoms
- Most extreme symptoms possible

Global Improvement of Cocaine Dependence

Rate the total improvement in the participant's cocaine dependence symptoms whether or not, in your judgment, it is due entirely to drug treatment. Compared to the subject's admission to the project, how much has the subject changed?

- Not assessed, first rating
- Very much improved
- Much improved
- Minimally improved
- No change
- Minimally worse
- Much worse
- Very much worse

	(mm/dd/yyyy)			

1. Depressed Mood

(sad, hopeless, helpless, worthless)

- 0 = Absent
- 1 = These feeling states indicated only on questioning.
- 2 = These feeling states spontaneously reported verbally.
- 3 = Communicates feeling states nonverbally – i.e., through facial expression, posture, voice, and tendency to weep.
- 4 = Subject reports virtually only these feeling states in his/her spontaneous verbal and nonverbal communication.

2. Feelings of Guilt

- 0 = Absent
- 1 = Self-reproach, feels s/he has let people down.
- 2 = Ideas of guilt or rumination over past errors or sinful deeds.
- 3 = Present illness is a punishment. Delusions of guilt.
- 4 = Hears accusatory or denunciatory voices and/or experiences threatening visual hallucinations.

3. Suicide

- 0 = Absent
- 1 = Feels life is not worth living.
- 2 = Wishes s/he were dead or any thoughts of possible death to self.
- 3 = Suicide ideas or gesture.
- 4 = Attempts at suicide (any serious attempt rates 4).

4. Insomnia Early

- 0 = No difficulty falling asleep.
- 1 = Complains of occasional difficulty falling asleep. (i.e., more than ½ hour)
- 2 = Complains of nightly difficulty falling asleep.

5. Insomnia Middle

- 0 = No difficulty.
- 1 = Subject complains of being restless and disturbed during the night.
- 2 = Waking during the night – any getting out of bed rates 2 (*except for purposes of voiding*).

6. Insomnia Late

- 0 = No difficulty.
- 1 = Waking in early hours of the morning but goes back to sleep.
- 2 = Unable to fall asleep again if gets out of bed.

Site ID:	Subject ID #.	Subject Initials	Week
Date:			
(mm/dd/yyyy)			

7. Work and Activities

- 0 = No difficulty
- 1 = Thoughts and feelings of incapacity, fatigue, or weakness related to activities; work or hobbies.
- 2 = Loss of interest in activity; hobbies or work – either directly reported by patient, or indirect in listlessness, indecision and vacillation (*feels s/he has to push self to work or activities*).
- 3 = Decrease in actual time spent in activities or decrease in productivity.
- 4 = Stopped working because of present illness.

8. Retardation

(slowness of thought and speech; impaired ability to concentrate; decreased motor activity)

- 0 = Normal speech and thought
- 1 = Slight retardation at interview
- 2 = Obvious retardation at interview
- 3 = Interview difficult
- 4 = Complete stupor

9. Agitation

- 0 = None
- 1 = Fidgetiness
- 2 = Playing with hands, hair, etc.
- 3 = Moving about, can't sit still
- 4 = Hand-wringing, nail-biting, hair-pulling, biting of lips

10. Anxiety Psychic

- 0 = No difficulty
- 1 = Subjective tension and irritability
- 2 = Worrying about minor matters
- 3 = Apprehensive attitude apparent in face or speech
- 4 = Fears expressed without questioning

11. Anxiety Somatic

(Physiological concomitants of anxiety such as: Gastrointestinal: dry mouth, wind, indigestion, diarrhea, cramps, belching. Cardiovascular: palpitations, headaches. Respiratory: hyperventilation, sighing. Urinary frequency. Sweating.)

- 0 = Absent
- 1 = Mild
- 2 = Moderate
- 3 = Severe
- 4 = Incapacitating

12. Somatic Symptoms Gastrointestinal

- 0 = None
- 1 = Loss of appetite but eating without encouragement. Heavy feelings in abdomen.
- 2 = Difficulty eating without urging. Requests or requires laxatives or medication for bowels or medication for G.I. symptoms.

Site ID:

Subject ID #.

Week

Date:

(mm/dd/yyyy)

13. Somatic Symptoms General

- 0 = None
- 1 = Heaviness in limbs, back or head. Backaches, headache, muscle aches. Loss of energy and fatigability.
- 2 = Any clear-cut symptom rates 2.

14. Genital Symptoms

(such as loss of libido and menstrual disturbances)

- 0 = Absent
- 1 = Mild
- 2 = Severe

15. Hypochondriasis

- 0 = Not present
- 1 = Self-absorption (bodily)
- 2 = Preoccupation with health
- 3 = Frequent complaints, requests for help, etc.
- 4 = Hypochondriacal delusions

16. Loss of Weight

- 0 = No weight loss
- 1 = Probable weight loss associated with present illness.
- 2 = Definite weight loss (according to subject)

17. Insight

- 0 = Acknowledges being depressed and ill.
- 1 = Acknowledges illness but attributes cause to bad food, climate, overwork, virus, need for rest, etc.
- 2 = Denies being ill at all

18. Diurnal Variation

- 0 = No variation
 - 1 = (Mild) Doubtful or slight variation
 - 2 = (Severe) Clear or marked variation
- If answer is 1 or 2, note whether the symptoms are worse in: O A.M. O P.M.

19. Depersonalization and Derealization

(symptoms such as feelings of unreality and nihilistic ideas)

- 0 = Absent
- 1 = Mild
- 2 = Moderate
- 3 = Severe
- 4 = Incapacitating

Date:	Site ID: <input style="width: 150px; height: 25px;" type="text"/>	Subject ID #. <input style="width: 150px; height: 25px;" type="text"/>	Subject Initials <input style="width: 150px; height: 25px;" type="text"/>	Week <input style="width: 50px; height: 25px;" type="text"/>
	<input style="width: 180px; height: 25px;" type="text"/> (mm/dd/yyyy)			

20. Paranoid Symptoms

- 0 = None
- 1 = Suspicious
- 2 = Ideas of reference
- 3 = Delusions of reference and persecution

21. Obsessive and Compulsive Symptoms

- 0 = Absent
- 1 = Mild
- 2 = Severe

22. Helplessness

- 0 = Not present
- 1 = Subjective feelings which are elicited only by inquiry.
- 2 = Subject volunteers his helpless feelings.
- 3 = Requires urging, guidance and reassurance to accomplish chores or personal hygiene.
- 4 = Despite urging, does not perform necessary chores or personal hygiene.

23. Hopelessness

- 0 = Not present
- 1 = Intermittently doubts that "things will improve" but can be reassured.
- 2 = Consistently feels "hopeless" but accepts reassurances.
- 3 = Expresses feelings of discouragement, despair, pessimism about future, which cannot be dispelled.
- 4 = Spontaneously and inappropriately perseverates, "I'll never get well," or its equivalent

24. Worthlessness

(ranges from mild loss of self-esteem, feelings of inferiority, self-depreciation (loss of self-esteem) to delusion notions of worthlessness)

- 0 = Not present
- 1 = Indicates feelings of worthlessness (loss of self esteem) only on questioning.
- 2 = Spontaneously indicates feelings of worthlessness (loss of self esteem).
- 3 = Different from 2 by degree: Subject volunteers that s/he is "no good," "inferior," etc.
- 4 = Expresses feelings of total worthlessness – e.g. "I am a heap of garbage" or equivalent

Treatment Week 8

Site ID: Subject ID #: Subject Initials: Week:

Date:
(mm/dd/yyyy)

This form is to be filled out for female subjects only. All female subjects must be tested at Screening/Baseline and have a negative pregnancy test in order to be eligible for this study.

What method of birth control is the participant currently using (prior to taking modafinil)?

- Oral contraceptive
- Barrier (diaphragm or condom plus spermicide)
- Levonorgestrel implant (Norplant)
- Intrauterine Contraceptive system (IUD)
- Medroxyprogesterone Acetate Contraceptive injection (Depo-Provera)
- Contraceptive patch
- Surgical Sterilization - Hysterectomy
- Surgical Sterilization - Tubal ligation

Unless surgically sterile or 2 years postmenopausal, does the subject agree to use an acceptable method of birth control during the study and 30 days after last dose of study drug?

- Yes
- No

If yes, mark below the acceptable method selected by the subject for use:

- barrier method with spermicide
- steroidal contraceptive [oral, Implanted, injected] used in conjunction with a barrier method
- Contraceptive patch used in conjunction with a barrier method
- Intrauterine device [IUD]

Was a pregnancy test performed? Yes No

If yes, date specimen collected
(mm/dd/yyyy)

Result: Negative Positive Unknown

If no, specify reason:

Is the subject lactating? Yes No

All questions except 4 and 5 are assessed by properly trained personnel. The subject is asked about each of the items in lay language and the response is recorded on a scale of 0-7 with 0 being normal or no symptoms. For question 4 and 5, the subject is asked to mark the appropriate place on the line (on page 3) that describes each of the questions. The rater then transcribes that as the response to those questions.

Date of last cocaine use:
(mm/dd/yyyy)

1. **Hyperphagia**
 0 = normal appetite
 3-4 = eats a lot more than usual
 7 = eats more than twice usual amount of food

2. **Hypophagia**
 0 = normal appetite
 3-4 = eats less than half of normal amount of food
 7 = no appetite at all

3. **Carbohydrate Craving**
 0 = no craving
 3-4 = strong craving for sweets, cakes, and cookies half the time
 7 = strong craving for sweets, cakes, and cookies all the time

4. **Cocaine Craving Intensity** *Please use subject intensity rating from pg. 3 of this form.*

5. **Cocaine Craving Frequency** *Please use subject frequency rating from pg. 3 of this form.*

6. **Bradycardia** *Please use scale below.*

	0	1	2	3	4	5	6	7
Pulse (BPM)	>64	64-63	62-61	60-59	58-57	56-55	54-53	<53

7. **Insomnia**
 0 = normal amount of sleep
 3-4 = half of normal amount of sleep
 7 = no sleep at all

8. **Hypersomnia**
 0 = normal amount of sleep
 3-4 = could sleep or does sleep half the day
 7 = sleep or could sleep all the time

This form is to be filled out for female subjects only. All female subjects must be tested at Screening/Baseline and have a negative pregnancy test in order to be eligible for this study.

What method of birth control is the participant currently using (prior to taking modafinil)?

- Oral contraceptive
- Barrier (diaphragm or condom plus spermicide)
- Levonorgestrel implant (Norplant)
- Intrauterine Contraceptive system (IUD)
- Medroxyprogesterone Acetate Contraceptive injection (Depo-Provera)
- Contraceptive patch
- Surgical Sterilization - Hysterectomy
- Surgical Sterilization - Tubal ligation

Unless surgically sterile or 2 years postmenopausal, does the subject agree to use an acceptable method of birth control during the study and 30 days after last dose of study drug?

- Yes
- No

If yes, mark below the acceptable method selected by the subject for use:

- barrier method with spermicide
- steroidal contraceptive [oral, Implanted, injected] used in conjunction with a barrier method
- Contraceptive patch used in conjunction with a barrier method
- Intrauterine device [IUD]

Was a pregnancy test performed? Yes No

If yes, date specimen collected
(mm/dd/yyyy)

Result: Negative Positive Unknown

If no, specify reason:

Is the subject lactating? Yes No

Week

Date:

(mm/dd/yyyy)

All questions except 4 and 5 are assessed by properly trained personnel. The subject is asked about each of the items in lay language and the response is recorded on a scale of 0-7 with 0 being normal or no symptoms. For question 4 and 5, the subject is asked to mark the appropriate place on the line (on page 3) that describes each of the questions. The rater then transcribes that as the response to those questions.

Date of last cocaine use:

(mm/dd/yyyy)

1. Hyperphagia

- 0 = normal appetite
- 3-4 = eats a lot more than usual
- 7 = eats more than twice usual amount of food

2. Hypophagia

- 0 = normal appetite
- 3-4 = eats less than half of normal amount of food
- 7 = no appetite at all

3. Carbohydrate Craving

- 0 = no craving
- 3-4 = strong craving for sweets, cakes, and cookies half the time
- 7 = strong craving for sweets, cakes, and cookies all the time

4. Cocaine Craving Intensity

Please use subject intensity rating from pg. 3 of this form.

5. Cocaine Craving Frequency

Please use subject frequency rating from pg. 3 of this form.

6. Bradycardia

Please use scale below.

	0	1	2	3	4	5	6	7
Pulse (BPM)	>64	64-63	62-61	60-59	58-57	56-55	54-53	<53

7. Insomnia

- 0 = normal amount of sleep
- 3-4 = half of normal amount of sleep
- 7 = no sleep at all

8. Hypersomnia

- 0 = normal amount of sleep
- 3-4 = could sleep or does sleep half the day
- 7 = sleep or could sleep all the time

Site ID:

Subject ID #.

Subject Initials

Week

Date:

(mm/dd/yyyy)

9. Anxiety

- 0 = usually does not feel anxious
- 3-4 = feels anxious half the time
- 7 = feels anxious all the time

10. Energy Level

- 0 = feels alert and has usual amount of energy
- 3-4 = feels tired half the time
- 7 = feels tired all the time

11. Activity Level

- 0 = no change in usual activities
- 3-4 = participates in half of usual activities
- 7 = no participation in usual activities

12. Tension

- 0-1 = rarely feel tense
- 3-4 = feels tense half the time
- 7 = feels tense most or all the time

13. Attention

- 0 = able to concentrate on reading, conversation, tasks, and make plans without difficulty
- 3-4 = has difficulty with the above half the time
- 7 = has difficulty with the above all the time

14. Paranoid Ideation

- 0 = no evidence of paranoid thoughts
- 3-4 = unable to trust anyone
- 5 = feels people are out to get him/her
- 7 = feels a specific person/group is plotting against him/her

15. Anhedonia

- 0 = ability to enjoy themselves remains unchanged
- 3-4 = able to enjoy themselves half of the time
- 7 = unable to enjoy themselves at all

16. Depression

- 0 = no feelings related to sadness or depression
- 3-4 = feels sad or depressed half the time
- 7 = feels depressed all of the time

17. Suicidality

- 0 = does not think about being dead
- 3-4 = feels like life is not worth living
- 7 = feels like actually ending life

18. Irritability

- 0 = feels that most things are not irritating
- 3-4 = feels that many things are irritating
- 7 = feels that mostly everything is irritating and upsetting

Global Severity of Cocaine Dependence

Considering your total clinical experience with the cocaine dependent population, how severe are this subject's cocaine dependence symptoms at this time?

- Normal, no symptoms
- Borderline symptoms
- Mild symptoms
- Moderate symptoms
- Marked symptoms
- Severe symptoms
- Most extreme symptoms possible

Global Improvement of Cocaine Dependence

Rate the total improvement in the participant's cocaine dependence symptoms whether or not, in your judgment, it is due entirely to drug treatment. Compared to the subject's admission to the project, how much has the subject changed?

- Not assessed, first rating
- Very much improved
- Much improved
- Minimally improved
- No change
- Minimally worse
- Much worse
- Very much worse

Cocaine

- The intensity of my craving, that is, how much I desired cocaine in the past 24 hours was:
 None at all Slight Moderate Considerable Extreme
- The frequency of my craving, that is, how often I desired cocaine in the past 24 hours was:
 Never Almost never Several times Regularly Almost constantly
- The length of time I spent craving for cocaine during the past 24 hours was:
 None at all Very short Short Somewhat long Very long
- Write in the number of times you think you had craving for cocaine during the past 24 hours:
- Write in the total time spent craving cocaine during the past 24 hours:
 hours minutes
- The worst day: During the past week my most intense craving occurred on the following day:
 Sunday Monday Tuesday Wednesday
 Thursday Friday Saturday All days the same (go to Q. 8)

 (mm/dd/yyyy)
- The date for that day was:

 (mm/dd/yyyy)
- The intensity of my craving, that is, how much I desired cocaine on that worst day was:
 None at all Slight Moderate Considerable Extreme

Second Drug

- A 2nd craved drug during the past 24 hours was:
Mark only one of the following. If no 2nd craved drug, mark "None" and leave Questions 10-16 blank.
 None Downers or Sedatives (Barbiturates, etc.) Benzos (Valium, Xanax, etc.) Nicotine
 Alcohol Heroin or other Opiates (Morphine, etc.) Marijuana Other Specify
- The intensity of my craving, that is, how much I desired this **second** drug in the past 24 hours was:
 None at all Slight Moderate Considerable Extreme

Treatment Week 12

All questions except 4 and 5 are assessed by properly trained personnel. The subject is asked about each of the items in lay language and the response is recorded on a scale of 0-7 with 0 being normal or no symptoms. For question 4 and 5, the subject is asked to mark the appropriate place on the line (on page 3) that describes each of the questions. The rater then transcribes that as the response to those questions.

Date of last cocaine use:

(mm/dd/yyyy)

1. Hyperphagia

- 0 = normal appetite
- 3-4 = eats a lot more than usual
- 7 = eats more than twice usual amount of food

2. Hypophagia

- 0 = normal appetite
- 3-4 = eats less than half of normal amount of food
- 7 = no appetite at all

3. Carbohydrate Craving

- 0 = no craving
- 3-4 = strong craving for sweets, cakes, and cookies half the time
- 7 = strong craving for sweets, cakes, and cookies all the time

4. Cocaine Craving Intensity

Please use subject intensity rating from pg. 3 of this form.

5. Cocaine Craving Frequency

Please use subject frequency rating from pg. 3 of this form.

6. Bradycardia

Please use scale below.

	0	1	2	3	4	5	6	7
Pulse (BPM)	>64	64-63	62-61	60-59	58-57	56-55	54-53	<53

7. Insomnia

- 0 = normal amount of sleep
- 3-4 = half of normal amount of sleep
- 7 = no sleep at all

8. Hypersomnia

- 0 = normal amount of sleep
- 3-4 = could sleep or does sleep half the day
- 7 = sleep or could sleep all the time

Site ID:

Subject ID #.

Subject Initials

Week

Date:

(mm/dd/yyyy)

9. Anxiety

- 0 = usually does not feel anxious
- 3-4 = feels anxious half the time
- 7 = feels anxious all the time

10. Energy Level

- 0 = feels alert and has usual amount of energy
- 3-4 = feels tired half the time
- 7 = feels tired all the time

11. Activity Level

- 0 = no change in usual activities
- 3-4 = participates in half of usual activities
- 7 = no participation in usual activities

12. Tension

- 0-1 = rarely feel tense
- 3-4 = feels tense half the time
- 7 = feels tense most or all the time

13. Attention

- 0 = able to concentrate on reading, conversation, tasks, and make plans without difficulty
- 3-4 = has difficulty with the above half the time
- 7 = has difficulty with the above all the time

14. Paranoid Ideation

- 0 = no evidence of paranoid thoughts
- 3-4 = unable to trust anyone
- 5 = feels people are out to get him/her
- 7 = feels a specific person/group is plotting against him/her

15. Anhedonia

- 0 = ability to enjoy themselves remains unchanged
- 3-4 = able to enjoy themselves half of the time
- 7 = unable to enjoy themselves at all

16. Depression

- 0 = no feelings related to sadness or depression
- 3-4 = feels sad or depressed half the time
- 7 = feels depressed all of the time

17. Suicidality

- 0 = does not think about being dead
- 3-4 = feels like life is not worth living
- 7 = feels like actually ending life

18. Irritability

- 0 = feels that most things are not irritating
- 3-4 = feels that many things are irritating
- 7 = feels that mostly everything is irritating and upsetting

Global Severity of Cocaine Dependence

Considering your total clinical experience with the cocaine dependent population, how severe are this subject's cocaine dependence symptoms at this time?

- Normal, no symptoms
- Borderline symptoms
- Mild symptoms
- Moderate symptoms
- Marked symptoms
- Severe symptoms
- Most extreme symptoms possible

Global Improvement of Cocaine Dependence

Rate the total improvement in the participant's cocaine dependence symptoms whether or not, in your judgment, it is due entirely to drug treatment. Compared to the subject's admission to the project, how much has the subject changed?

- Not assessed, first rating
- Very much improved
- Much improved
- Minimally improved
- No change
- Minimally worse
- Much worse
- Very much worse

Indicate how much you agree or disagree with each of the following statements by circling the number which best shows how you feel. The lower the number, the more you disagree; the higher the number, the more you agree with the statement. Please complete every item. We are interested in how you are thinking or feeling RIGHT NOW as you are filling out the questionnaire.

	<u>Strongly Disagree</u>						<u>Strongly Agree</u>
1. If I were using cocaine, I could think more clearly.	1	2	3	4	5	6	7
2. Right now I am not making plans to use "coke."	1	2	3	4	5	6	7
3. My desire to use cocaine seems overpowering.	1	2	3	4	5	6	7
4. I am thinking of ways to get cocaine.	1	2	3	4	5	6	7
5. I don't want to use "coke".	1	2	3	4	5	6	7
6. If I were offered some "coke", I would use it immediately.	1	2	3	4	5	6	7
7. Using cocaine would make me feel less depressed.	1	2	3	4	5	6	7
8. I could easily control how much cocaine I use right now.	1	2	3	4	5	6	7
9. I crave "coke" right now.	1	2	3	4	5	6	7
10. Using cocaine would make me feel powerful.	1	2	3	4	5	6	7
11. If there were cocaine in front of me, it would be hard not to use it.	1	2	3	4	5	6	7
12. Using cocaine would not help me calm down right now.	1	2	3	4	5	6	7
13. I would feel very alert if I used cocaine right now.	1	2	3	4	5	6	7
14. If I had the chance to use "coke", I don't think I would use it.	1	2	3	4	5	6	7
15. I would not enjoy using cocaine right now.	1	2	3	4	5	6	7
16. I would do almost anything for cocaine right now.	1	2	3	4	5	6	7
17. I could control things better right now if I could use cocaine.	1	2	3	4	5	6	7
18. Even if it were possible, I probably would not use cocaine right now.	1	2	3	4	5	6	7

	Strongly Disagree						Strongly Agree
	1	2	3	4	5	6	7
21. I have an urge for cocaine.							
22. I would not be able to control how much cocaine I used if I had some here.							
23. Starting now, I could go without using cocaine for long time.							
24. I would be less irritable now if I could use cocaine.							
25. I would feel energetic if I used cocaine.							
26. All I want to use right now is cocaine.							
27. Using cocaine would not sharpen my concentration.							
28. I do not need to use cocaine now.							
29. It would be difficult to turn down cocaine this minute.							
30. If I use cocaine right now, I would not feel less restless.							
31. I will use cocaine as soon as I get a chance.							
32. Using cocaine now would make things seem just perfect.							
33. I want to use cocaine so bad that I can almost taste it.							
34. Nothing would be better than using "coke" right now.							
35. If I used cocaine, my anger would not decrease.							
36. It would be easy to pass up the chance to use cocaine.							
37. I am going to use cocaine as soon as possible.							
38. I have no desire for cocaine right now.							
39. I could not stop myself from using cocaine if I had some here now.							
40. Using "coke" right now would make me feel less tired.							
41. Using cocaine would not be very satisfying right now.							
42. If I tried a little "coke" now, I would not be able to stop using more of it.							
43. I would not feel less anxious if I used "coke".							
44. I am not missing using cocaine now.							
45. If I had some "coke" with me right now, I probably would not use it.

Date:	<input style="width: 180px; height: 25px;" type="text"/>			
	(mm/dd/yyyy)			

1. Depressed Mood

(sad, hopeless, helpless, worthless)

- 0 = Absent
- 1 = These feeling states indicated only on questioning.
- 2 = These feeling states spontaneously reported verbally.
- 3 = Communicates feeling states nonverbally – i.e., through facial expression, posture, voice, and tendency to weep.
- 4 = Subject reports virtually only these feeling states in his/her spontaneous verbal and nonverbal communication.

2. Feelings of Guilt

- 0 = Absent
- 1 = Self-reproach, feels s/he has let people down.
- 2 = Ideas of guilt or rumination over past errors or sinful deeds.
- 3 = Present illness is a punishment. Delusions of guilt.
- 4 = Hears accusatory or denunciatory voices and/or experiences threatening visual hallucinations.

3. Suicide

- 0 = Absent
- 1 = Feels life is not worth living.
- 2 = Wishes s/he were dead or any thoughts of possible death to self.
- 3 = Suicide ideas or gesture.
- 4 = Attempts at suicide (any serious attempt rates 4).

4. Insomnia Early

- 0 = No difficulty falling asleep.
- 1 = Complains of occasional difficulty falling asleep. (i.e., more than ½ hour)
- 2 = Complains of nightly difficulty falling asleep.

5. Insomnia Middle

- 0 = No difficulty.
- 1 = Subject complains of being restless and disturbed during the night.
- 2 = Waking during the night – any getting out of bed rates 2 (*except for purposes of voiding*).

6. Insomnia Late

- 0 = No difficulty.
- 1 = Waking in early hours of the morning but goes back to sleep.
- 2 = Unable to fall asleep again if gets out of bed.

Date:	<input style="width: 180px; height: 25px;" type="text"/>			
	<i>(mm/dd/yyyy)</i>			

7. Work and Activities

- 0 = No difficulty
- 1 = Thoughts and feelings of incapacity, fatigue, or weakness related to activities; work or hobbies.
- 2 = Loss of interest in activity; hobbies or work – either directly reported by patient, or indirect in listlessness, indecision and vacillation (*feels s/he has to push self to work or activities*).
- 3 = Decrease in actual time spent in activities or decrease in productivity.
- 4 = Stopped working because of present illness.

8. Retardation

(slowness of thought and speech; impaired ability to concentrate; decreased motor activity)

- 0 = Normal speech and thought
- 1 = Slight retardation at interview
- 2 = Obvious retardation at interview
- 3 = Interview difficult
- 4 = Complete stupor

9. Agitation

- 0 = None
- 1 = Fidgetiness
- 2 = Playing with hands, hair, etc.
- 3 = Moving about, can't sit still
- 4 = Hand-wringing, nail-biting, hair-pulling, biting of lips

10. Anxiety Psychic

- 0 = No difficulty
- 1 = Subjective tension and irritability
- 2 = Worrying about minor matters
- 3 = Apprehensive attitude apparent in face or speech
- 4 = Fears expressed without questioning

11. Anxiety Somatic

(Physiological concomitants of anxiety such as: Gastrointestinal: dry mouth, wind, indigestion, diarrhea, cramps, belching. Cardiovascular: palpitations, headaches. Respiratory: hyperventilation, sighing. Urinary frequency. Sweating.)

- 0 = Absent
- 1 = Mild
- 2 = Moderate
- 3 = Severe
- 4 = Incapacitating

12. Somatic Symptoms Gastrointestinal

- 0 = None
- 1 = Loss of appetite but eating without encouragement. Heavy feelings in abdomen.
- 2 = Difficulty eating without urging. Requests or requires laxatives or medication for

bowels or medication for G.I. symptoms.

13. Somatic Symptoms General

- 0 = None
- 1 = Heaviness in limbs, back or head. Backaches, headache, muscle aches. Loss of energy and fatigability.
- 2 = Any clear-cut symptom rates 2.

14. Genital Symptoms

(such as loss of libido and menstrual disturbances)

- 0 = Absent
- 1 = Mild
- 2 = Severe

15. Hypochondriasis

- 0 = Not present
- 1 = Self-absorption (bodily)
- 2 = Preoccupation with health
- 3 = Frequent complaints, requests for help, etc.
- 4 = Hypochondriacal delusions

16. Loss of Weight

- 0 = No weight loss
- 1 = Probable weight loss associated with present illness.
- 2 = Definite weight loss (according to subject)

17. Insight

- 0 = Acknowledges being depressed and ill.
- 1 = Acknowledges illness but attributes cause to bad food, climate, overwork, virus, need for rest, etc.
- 2 = Denies being ill at all

18. Diurnal Variation

- 0 = No variation
 - 1 = (Mild) Doubtful or slight variation
 - 2 = (Severe) Clear or marked variation
- If answer is 1 or 2, note whether the symptoms are worse in: A.M. P.M.

19. Depersonalization and Derealization

(symptoms such as feelings of unreality and nihilistic ideas)

- 0 = Absent
- 1 = Mild
- 2 = Moderate
- 3 = Severe
- 4 = Incapacitating

Date:	<input style="width: 180px; height: 30px;" type="text"/>			
	<i>(mm/dd/yyyy)</i>			

20. Paranoid Symptoms

- 0 = None
- 1 = Suspicious
- 2 = Ideas of reference
- 3 = Delusions of reference and persecution

21. Obsessive and Compulsive Symptoms

- 0 = Absent
- 1 = Mild
- 2 = Severe

22. Helplessness

- 0 = Not present
- 1 = Subjective feelings which are elicited only by inquiry.
- 2 = Subject volunteers his helpless feelings.
- 3 = Requires urging, guidance and reassurance to accomplish chores or personal hygiene.
- 4 = Despite urging, does not perform necessary chores or personal hygiene.

23. Hopelessness

- 0 = Not present
- 1 = Intermittently doubts that "things will improve" but can be reassured.
- 2 = Consistently feels "hopeless" but accepts reassurances.
- 3 = Expresses feelings of discouragement, despair, pessimism about future, which cannot be dispelled.
- 4 = Spontaneously and inappropriately perseverates, "I'll never get well," or its equivalent

24. Worthlessness

(ranges from mild loss of self-esteem, feelings of inferiority, self-depreciation (loss of self-esteem) to delusion notions of worthlessness)

- 0 = Not present
- 1 = Indicates feelings of worthlessness (loss of self esteem) only on questioning.
- 2 = Spontaneously indicates feelings of worthlessness (loss of self esteem).
- 3 = Different from 2 by degree: Subject volunteers that s/he is "no good," "inferior," etc.
- 4 = Expresses feelings of total worthlessness – e.g. "I am a heap of garbage" or equivalent

9. How often have you used condoms when you had sex with casual partners?

No casual partner/no penetrative sex

Every time

Often

Sometimes

Rarely

Never

10. How often have you used condoms when you have been paid for sex in the last month?

No paid partner/no penetrative sex

Every time

Often

Sometimes

Rarely

Never

11. How many times have you had anal sex in the last month?

No times

One time

Two times

3-5 times

6-10 times

More than 10 times

Everyone should answer Question 12.

12. Have you had an HIV test come back positive?

Yes

No

Don't know

This form is to be filled out for female subjects only. All female subjects must be tested at Screening/Baseline and have a negative pregnancy test in order to be eligible for this study.

What method of birth control is the participant currently using (prior to taking modafinil)?

- Oral contraceptive
- Barrier (diaphragm or condom plus spermicide)
- Levonorgestrel implant (Norplant)
- Intrauterine Contraceptive system (IUD)
- Medroxyprogesterone Acetate Contraceptive injection (Depo-Provera)
- Contraceptive patch
- Surgical Sterilization - Hysterectomy
- Surgical Sterilization - Tubal ligation

Unless surgically sterile or 2 years postmenopausal, does the subject agree to use an acceptable method of birth control during the study and 30 days after last dose of study drug?

- Yes
- No

If yes, mark below the acceptable method selected by the subject for use:

- barrier method with spermicide
- steroidal contraceptive [oral, Implanted, injected] used in conjunction with a barrier method
- Contraceptive patch used in conjunction with a barrier method
- Intrauterine device [IUD]

Was a pregnancy test performed? Yes No

If yes, date specimen collected
(mm/dd/yyyy)

Result: Negative Positive Unknown

If no, specify reason:

Is the subject lactating? Yes No

Treatment Week 16

Site ID:

Subject ID #.

Subject Initials

Week

Date:

(mm/dd/yyyy)

Ask subject to read each of the items and choose only one answer for each question

Drug Use

1. How many times have you hit up (i.e. injected any drugs) in the last month?

I haven't hit up

If you have not injected drugs in the last month, go to Question 7.

Once a week or less

More than once a week but less than once a day

Once a day

2--3 times a day

More than three times a day

2. How many times in the last month have you used a needle after someone else had already used it?

No times

One time

Two times

3-5 times

6-10 times

More than 10 times

3. How many different people have used a needle before you in the past month?

None

One person

Two people

3-5 people

6-10 people

More than 10 people

4. How many times in the last month has someone used a needle after you?

No times

One time

Two times

3-5 times

6-10 times

More than 10 times

5. How often, in the last month, have you cleaned needles before re-using them?

I do not re-use

Every time

Often

Sometimes

Rarely

Never

6. Before using needles again, how often in the past month did you use bleach to clean them?

I do not re-use

Every time

Often

Sometimes

Rarely

Never

Treatment Week 16

Week

Date:

(mm/dd/yyyy)

Sexual Behavior

7. How many people, including clients, have you had sex with in the last month?

None

If you have not had sex in the last month, skip to Question 12.

One

Two

3-5 people

6-10 people

More than 10 people

8. How often have you used condoms when having sex with your regular partner(s) in the last month?

No regular partner/no penetrative sex

Every time

Often

Sometimes

Rarely

Never

9. How often have you used condoms when you had sex with casual partners?

No casual partner/no penetrative sex

Every time

Often

Sometimes

Rarely

Never

10. How often have you used condoms when you have been paid for sex in the last month?

No paid partner/no penetrative sex

Every time

Often

Sometimes

Rarely

Never

11. How many times have you had anal sex in the last month?

No times

One time

Two times

3-5 times

6-10 times

More than 10 times

Everyone should answer Question 12.

12. Have you had an HIV test come back positive?

Yes

No

Don't know

Treatment Week 16

Site ID: Subject ID #: Subject Initials: Week:

Date:
(mm/dd/yyyy)

This form is to be filled out for female subjects only. All female subjects must be tested at Screening/Baseline and have a negative pregnancy test in order to be eligible for this study.

What method of birth control is the participant currently using (prior to taking modafinil)?

- Oral contraceptive
- Barrier (diaphragm or condom plus spermicide)
- Levonorgestrel implant (Norplant)
- Intrauterine Contraceptive system (IUD)
- Medroxyprogesterone Acetate Contraceptive injection (Depo-Provera)
- Contraceptive patch
- Surgical Sterilization - Hysterectomy
- Surgical Sterilization - Tubal ligation

Unless surgically sterile or 2 years postmenopausal, does the subject agree to use an acceptable method of birth control during the study and 30 days after last dose of study drug?

- Yes
- No

If yes, mark below the acceptable method selected by the subject for use:

- barrier method with spermicide
- steroidal contraceptive [oral, Implanted, injected] used in conjunction with a barrier method
- Contraceptive patch used in conjunction with a barrier method
- Intrauterine device [IUD]

Was a pregnancy test performed? Yes No

If yes, date specimen collected
(mm/dd/yyyy)

Result: Negative Positive Unknown

If no, specify reason:

Is the subject lactating? Yes No

Did Subject receive HIV Counseling at Follow up?

(If No, please comment below)

Yes

No

Additional comments:

Completed by (Initials):

Site ID:

Subject ID #.

Subject Initials

Week

Date:

(mm/dd/yyyy)

1. Has contact been made with the subject? Yes No

If Yes, date of contact:

(mm/dd/yyyy)

If No, skip to question #7.

2. Does the subject report currently receiving treatment for drug or alcohol abuse/dependence? Yes No
3. Does the subject report that s/he would take the study drug again if it were generally available for substance abuse treatment? Yes No Unknown
4. Have any adverse events occurred? Yes No
If 'Yes', an Adverse Event CRF form must be completed.
5. Have any serious adverse events occurred? Yes No
If 'Yes', a Serious Adverse Event report must be filed.
6. If subject does not complete the SUI, ask about use of any of the following and if so, for how many days since last clinic visit? (Select all that apply.)

Days
Used

- Cocaine
- Methamphetamines
- Amphetamines
- Benzodiazepines
- Alcohol
- Marijuana
- Sedatives
- Nicotine
- Opiates
- Barbiturates
- None
- Other

If unable to make contact with the subject, please complete the following:

7. Has contact been made with someone who can verify his/her status? Yes No
If yes, according to the contact:
8. Is the subject living? Yes No Unknown
If the subject has died, a Serious Adverse Event report must be filed.
9. Is the subject currently using Cocaine? Yes No Unknown
10. Additional comments:

Completed by (Initials):

Site ID:

Subject ID #.

Subject Initials

Week

Date:

(mm/dd/yyyy)

This form must be completed for every consented subject.

1. Date of last clinic visit

(mm/dd/yyyy)

2. Date of last study drug dispensed

(mm/dd/yyyy)

3. Was the subject randomized?

Yes

No

If "No", indicate below reason(s) not randomized.

If "Yes", indicate below reason(s) subject is no longer in study.

Reason(s) subject's participation has ended:

Mark all that apply.

Subject completed study.

Subject failed to meet Inclusion/Exclusion criteria. **Entry Criteria form must indicate which criteria were/were not met.**

Subject declined to participate (during Screening).

Subject requested to withdraw from study

Subject reports drug not working

Other **Please specify below.**

Subject developed sensitivity to study drug or experienced intercurrent illness, unrelated medical condition, or

clinically significant adverse events which, in the judgment of the investigator, prompted early termination.

If subject experienced adverse event(s), an Adverse Event Case Report Form(s) must be completed. Please specify which Adverse Event(s) is(are) involved.

Subject terminated for administrative reasons. **Include protocol non-compliance in this Category. Provide comments.**

Subject transferred to another treatment program (select type)

Methadone

LAAM

Drug Free

Inpatient Detox or Treatment

Therapeutic Community

Other, specify

Subject became pregnant.

Subject moved from area.

Subject died.

Subject did not return to study/clinic

Subject is in a controlled environment

Other **Provide comments**

4. Comments:

I, by signing and dating this form, indicate my assurance that with my supervision and management, all data in the CRF have been reviewed and are correct.

Principal Investigator: **Signature**

This form is to be filled out for female subjects only. All female subjects must be tested at Screening/Baseline and have a negative pregnancy test in order to be eligible for this study.

What method of birth control is the participant currently using (prior to taking modafinil)?

- Oral contraceptive
- Barrier (diaphragm or condom plus spermicide)
- Levonorgestrel implant (Norplant)
- Intrauterine Contraceptive system (IUD)
- Medroxyprogesterone Acetate Contraceptive injection (Depo-Provera)
- Contraceptive patch
- Surgical Sterilization - Hysterectomy
- Surgical Sterilization - Tubal ligation

Unless surgically sterile or 2 years postmenopausal, does the subject agree to use an acceptable method of birth control during the study and 30 days after last dose of study drug?

- Yes
- No

If yes, mark below the acceptable method selected by the subject for use:

- barrier method with spermicide
- steroidal contraceptive [oral, Implanted, injected] used in conjunction with a barrier method
- Contraceptive patch used in conjunction with a barrier method
- Intrauterine device [IUD]

Was a pregnancy test performed?

- Yes
- No

If yes, date specimen collected

(mm/dd/yyyy)

Result: Negative Positive Unknown

If no, specify reason:

Is the subject lactating?

- Yes
- No

4. Protein	<input type="text"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="text"/>
5. Ketones	<input type="text"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="text"/>
6. Occult Blood	<input type="text"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="text"/>
7. WBC	<input type="text"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="text"/>
8. RBC	<input type="text"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="text"/>
9. Epithelial Cells	<input type="text"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="text"/>

****Abnormal** is any value outside the normal laboratory range.**

For Glucose, Protein, Ketones, and Occult Blood use the following scale to report Values:

- 1 = Absent
- 0 = Trace
- 1
- 2
- 3
- 4

For WBC, RBC, and Epithelial Cells use the following scale to report Values:

- 1 = None (1 – 5)
- 2 = Few (6 – 10)
- 3 = Moderate (11 – 50)
- 4 = Heavy (>50)

Check here if this form is completed for retest of previous lab tests.

A. ECG overall results were: Normal
 Abnormal

If ECG is Normal please skip to Question C.

B. If ECG is abnormal, check below for all abnormalities.

	<u>Abnormal</u>	<u>Abnormal Significant</u>		<u>Abnormal</u>	<u>Abnormal Significant</u>
1. Increased QRS voltage	<input type="checkbox"/>	<input type="checkbox"/>	17. Supraventricular premature beat	<input type="checkbox"/>	<input type="checkbox"/>
2. Qtc prolongation	<input type="checkbox"/>	<input type="checkbox"/>	18. Ventricular premature beat	<input type="checkbox"/>	<input type="checkbox"/>
3. Left atrial hypertrophy	<input type="checkbox"/>	<input type="checkbox"/>	19. Supraventricular tachycardia	<input type="checkbox"/>	<input type="checkbox"/>
4. Right atrial hypertrophy	<input type="checkbox"/>	<input type="checkbox"/>	20. Ventricular tachycardia	<input type="checkbox"/>	<input type="checkbox"/>
5. Left ventricular hypertrophy	<input type="checkbox"/>	<input type="checkbox"/>	21. Atrial fibrillation	<input type="checkbox"/>	<input type="checkbox"/>
6. Right ventricular hypertrophy	<input type="checkbox"/>	<input type="checkbox"/>	22. Atrial flutter	<input type="checkbox"/>	<input type="checkbox"/>
7. Acute infarction	<input type="checkbox"/>	<input type="checkbox"/>	23. Other rhythm abnormalities	<input type="checkbox"/>	<input type="checkbox"/>
8. Subacute infarction	<input type="checkbox"/>	<input type="checkbox"/>	24. Implanted pacemaker	<input type="checkbox"/>	<input type="checkbox"/>
9. Old infarction	<input type="checkbox"/>	<input type="checkbox"/>	25. 1 st degree A-V block	<input type="checkbox"/>	<input type="checkbox"/>
10. Myocardial ischemia	<input type="checkbox"/>	<input type="checkbox"/>	26. 2 nd degree A-V block	<input type="checkbox"/>	<input type="checkbox"/>
11. Digitalis effect	<input type="checkbox"/>	<input type="checkbox"/>	27. 3 rd degree A-V block	<input type="checkbox"/>	<input type="checkbox"/>
12. Symmetrical T-wave inversions	<input type="checkbox"/>	<input type="checkbox"/>	28. LBB block	<input type="checkbox"/>	<input type="checkbox"/>
13. Poor R-wave progression	<input type="checkbox"/>	<input type="checkbox"/>	29. RBB block	<input type="checkbox"/>	<input type="checkbox"/>
14. Other nonspecific ST/T	<input type="checkbox"/>	<input type="checkbox"/>	30. Pre-excitation syndrome	<input type="checkbox"/>	<input type="checkbox"/>
15. Sinus tachycardia	<input type="checkbox"/>	<input type="checkbox"/>	31. Other intraventricular condition	<input type="checkbox"/>	<input type="checkbox"/>
16. Sinus bradycardia	<input type="checkbox"/>	<input type="checkbox"/>	32. Other, specify <input type="text"/>	<input type="checkbox"/>	<input type="checkbox"/>

C. Ventricular rate (bpm)

E. QRS (ms)

D. PR (ms)

F. QTC (ms)

G. Are there any abnormalities noted above that preclude the subject from safe entry into or continuation in the study? Yes No
