#### Start of Block: Refer for confirmatory testing

*Display This Question:*

*If Did you visit a doctor or clinic to get confirmatory tests for HIV? = No*

Q9.1 Confirming your home test result is very important.

It is important that you visit a clinic and do a blood test. This test will tell if you are infected with HIV or if the home test is wrong. If you need assistance, you may visit <https://gettested.cdc.gov/> to find a test site near you.
