

Data Notes for Final Dataset

Data errors:

- TAPS Prescriptions Opiates:
 - Subjid175 has a value of 0 for “taps_12month_scripts” variable, but a value of 1 for “taps_3months_opiates” variable. The research team has treated this case as missing when computing the TAPS prescription opiate subscale score.
 - 6 cases (subject IDs below) have values >0 for “taps_12month_scripts”, but missing values for all subsequent 3 months questions. The research team has treated these cases as missing when computing the TAPS prescription opiate subscale scores.
 - subjid193
 - subjid217
 - subjid534
 - subjid610
 - subjid1084
 - subjid1210
 - subjid1472
- WHO ASSIST Tobacco:
 - A value was erroneously collected for 539 cases for the variable “assist_failed_tobacco” (ASSIST Question 5). No values should have been collected for WHO ASSIST question 5 regarding tobacco. “Assist_failed_tobacco” should not be included when computing the WHO ASSIST Tobacco subscale per WHO ASSIST scoring instructions.
